FINANCIAL DEPARTMENT.

No. 4482.

EXTRACT from the Proceedings of the Government of India, in the Financial Department, dated 5th July 1862.

READ again Financial Resolution No. 3173, dated 13th March 1861.

Read an endorsement from the Foreign Department, No. 428, dated 29th March 1862, forwarding, for disposal, a letter from the Officiating Secretary to Chief Commissioner, Central Provinces, submitting a proposal for the introduction in those Provinces of a system of Banking with Collectors' Treasuries by Officers of the Public Works Department.

RESOLUTION.—In March 1861, this Government directed by a Notification in the *Calcutta Gazette* that the system of paying by Cheques be established, as a general rule, in all Departments of Government, unless strong special grounds could be shewn to justify an exception in any particular case.

A year after, the Chief Commissioner, Central Provinces, proposed to introduce in those Provinces the system of Banking with Government Treasuries by the Officers of the Public Works Department; and, with that view, Major Chesney, Inspector-General of Public Works Accounts, submitted to the Chief Commissioner a draft set of Rules.

The proposal was sanctioned in this Department on the 11th ultimo, subject to a Report from the Auditor-General of India as to whether the Rules framed had his approval.

The Auditor-General having since reported that the Rules are unobjectionable and well adapted to the object in view, the Governor-General in Council is pleased to approve of them.

ORDERED, that a copy of the foregoing Resolution, together with the Rules therein adverted to, be sent to all Departments, Governments, Administrations, and Residencies, with a request to the local Governments that they will submit a Report as to how far the system of Banking, sanctioned on the 13th March 1861, has been introduced generally.

Ordered, further, that a copy be sent to the Chief Commissioner, Central Provinces, the Auditor-General of India, and the Deputy Auditors and Accountants-General, Bengal, North-Western Provinces, Madras, Bombay, Punjab, Central Provinces, and Hyderabad.

No. 114.

Ordered also, that the above Resolution and the following Rules be published in the *Calcutta Gazette* for general information.

(A true Extract,)

E. DRUMMOND,
Secy. to the Govt. of India.

DRAFT RULES for the introduction of the Banking system by the Public Works Department with Government Treasuries.

1. CHEQUES will be drawn as required by Executive Engineers upon the Officer in charge of the Civil Treasury, against the amount of their credit for the month with such Treasury, and such Cheques will be payable at the usual hours by the Treasury Officer.

2. All payments requiring to be made by an Executive Engineer in excess of Rupees 25 will be made by Cheques, but Cheques are not to be drawn for smaller amounts than Rupees 25.

3. Large sums, which it is necessary for the Executive Engineer to disburse to different parties under his immediate orders, such as the pay of Establishments, shall be drawn daily as required by Cheques.

4. With the exception of the small sums that may be necessary to meet petty demands on any Executive Engineer, no cash shall be drawn beyond the amount to be paid away in each day. An Executive Engineer must make his own arrangements for the safe custody of any cash which he may have occasion to keep.

5. The Cheque will be of the accompanying Form, with a counterfeit to be retained by the Executive Engineer. The Cheque Book should be kept by the Executive Engineer, and no one but himself should have access to it.

6. No Cheque will be payable at the Treasury after the expiration of the month in which it is drawn.

7. Immediately after the termination of the month, the Executive Engineer will send to the Treasury Officer a Statement, as per the accompanying Form, shewing the Cheques drawn during the month. The Treasury Officer, after receiving this, will send to the Executive Engineer a note of the Cheques included therein, which have not been presented for payment, and which, therefore, have to be cancelled.

8. These Rules are to come into force from the 1st May 1862. The Public Works Controller is prohibited from passing any charges for Treasurers or Treasure Guards, after that date, except in such cases as may be specially sanctioned by the Chief Commissioner.

No. 684 *of* 1862.—It having been brought to the notice of Government, that instances still occur of Owners of houses, &c., in Military Cantonments either refusing or failing to keep the buildings in such a state of repair as to render them suitable for the purposes for which their erection was permitted, although the power retained by Government* of resuming the ground on which they stand has been more than once exercised, the Right Hon'ble the Governor-General in Council deems it necessary to notify, for general information, that authority will be given for the resumption of the land in which the buildings so neglected are situated, whenever it shall appear that the Owners or their Agents have failed, although duly warned to cause the necessary repairs to be executed, and that inconvenience has thereby been caused to the inhabitants of the Station.

* *Vide* Government General Order No. 179, dated 12th September 1836, paragraph 6.

The Owner or Agent shall however have the option of removing the materials within one fortnight from the date of the Committee's Report.

3. Non-residence on the part of Owners cannot be taken either as an excuse for the neglect of their property above adverted to, or as a ground for exemption from the operation of this order. Non-resident Owners should therefore cause either their own names and addresses or those of their Agents to be duly registered by the Officer in charge of the Cantonment Register, in order that no delay may occur in communicating with them when necessary.

advantageous. Under a provisional Deed of Agreement the Assets of the Dacca Bank were gradually liquidated, and the whole business has since been satisfactorily wound up. In exchange for their Capital of Four Lacs, the Shareholders of the extinct Bank receive of the Bank's stock, Rupees Two Lacs ninety thousand nine hundred and nine.

Concurrently with the opening up of the country by Railways, and by means of a well organised system of Branches, the Directors anticipate that the difficulties which hitherto have stood in the way of extending a Note Currency throughout India will be materially obviated. Meanwhile, the Directors have to inform the Shareholders that the progress of the Branches already opened is on the whole encouraging and satisfactory. The Treasuries at Patna and Dacca have already been delivered over to these Branches; those at Mirzapore, Benares, and Rangoon are to follow on 1st August.

Turning to the operations of the Bank during the past half-year, the Directors have the satisfaction to announce that no bad debts have been sustained.

The nett profits on the Bank's ordinary business yield a dividend, free of Income Tax, at the rate of Rs. 11-11-5¾ per cent. per annum. Adding thereto Rs. 2-4-6¼, accruing from extraordinary profits as hereafter detailed, the Directors have resolved to declare a dividend at the rate of fourteen per cent. per annum, free of Income Tax.

With a view to meet the probable fluctuations in the value of the large sum now held in Government Securities—to give stability to the market value of the Bank's stock, and to enable the Directors to equalise future dividends, it has been deemed expedient to extend the existing Reserve Fund.

From the amount of the Bank's Notes still outstanding, the Directors have resolved to write off Ten Lacs and carry the amount to Reserve Fund. Of the sum so disposed of, nearly Three Lacs have been outstanding since 1837; upwards of Three Lacs since 1843; and more than Two and a half Lacs since 1854. Of the latest issues dated in 1858, there are still Forty-four Lacs outstanding. The increased value of the Bank's investments during the past six months amounts to Rupees Four Lacs sixty-seven thousand five hundred and ninety-six, fifteen annas and eleven pie.

This sum, along with the profits arising on the transfer of the Dacca Bank, have in like manner, been transferred to Reserve Fund.

After supplementing the half year's dividend—writing off the cost price of the Bank's Notes, and paying the Law Agents' charges for New Charter, Deeds of Agreement, &c., there remains a balance at credit of Reserve Fund amounting to Rupees Sixteen Lacs forty-nine thousand seven hundred and fifty-six, eleven annas and one pie.

To adapt the Bank's premises to the increased business and the requirements of Government, a considerable addition has been made to the Building Fund. To equip the Bank thoroughly, further outlays must still be made.

By simplyfying the system of Book-keeping and re-organising the different Departments, it will be observed, that the Directors have hitherto been able to conduct the increased business at a comparatively small addition to the amount of the former establishment, a result which is mainly due to the zeal and exertions of their able Secretary and Treasurer.

Home Department.

Alleged discovery of a vein of Galena in Sownlore Creek, Tenasserim Provinces.

The alleged discovery abovementioned having been brought to the notice of the Government, the Commissioner of the Tenasserim Provinces was called upon for a report, and the following correspondence on the subject is published for general information:—

From LIEUTENANT-COLONEL A. P. PHAYRE, Chief Commissioner of British Burmah, and Agent to the Governor-General, to E. C. BAYLEY, Esq., Secretary to the Government of India, Home Department,—(No. 990, dated Rangoon, the 20th May 1862.)

SIR,—WITH reference to letter No. 1842, dated 13th September last, from Mr. Secretary W. Grey, to the address of the Commissioner of Tenasserim and Martaban Provinces, I have the honor to submit copies of the letters as noted in the margin[1] from the Deputy Commissioners of the Districts of Mergui and Tavoy, reporting their efforts to reach a spot on a stream running into the Tenasserim River, where it was believed there existed a vein of Galena. A Sketch Map constructed by Captain Harrison, Deputy Commissioner of Mergui, accompanies the report.

[1] From Deputy Commissioner, Tavoy, No. 434, dated the 15th March 1862.
From the Deputy Commissioner, Mergui, No. 119, dated the 24th March 1862.

2. It will be seen from the report of Major Stevenson that he failed to reach the spot where the lode of Galena exists, but it appears to be situated on a stream called the Tsoung or Tsoung Wah, (Sownlore Creek of the original correspondence), which runs into the Tenasserim River within the Tavoy District. Major Stevenson was rather late in the season and had not with him the means for prosecuting a journey through so difficult a country. He will however be instructed to proceed there next dry season.

3. After Major Stevenson's return to the Station of Tavoy, a Karen brought to him some specimens of the ore from the same place, which are forwarded in a separate package.

4. Since then, Colonel Fytche informs me that a further quantity of the ore has been brought in, and has been forwarded by Major Stevenson to Professor Oldham, Superintendent of the Geological Museum.

From MAJOR J. F. J. STEVENSON, Deputy Commissioner, 3rd Class, Tavoy, Tenasserim and Martaban Provinces, to LIEUTENANT-COLONEL ALBERT FYTCHE, Commissioner of Tenasserim Division, Moulmein,—(dated Tavoy, the 15th March 1862.)

SIR,—I HAVE the honor to inform you that I have just returned from an unsuccessful attempt to reach the site of the ore of Galena on the Tenasserim River.

2. Captain Harrison, Deputy Commissioner of Mergui, passed through Tavoy, under orders from you to visit the said site last month. As it was supposed that it was in his District, I informed him that I believed that it was above a certain Karen Village (Aungthawara) on the Tenasserim River, which is in the Tavoy District. He was not convinced, and I proposed to make the journey with him. We went first from Tavoy to Metta, the largest Karen Village in this District, situated on what are called the forks of the Tenasserim, about thirty-four miles from Tavoy. Thence we started in canoes on the 28th February, and on the 3rd March reached Thewa stream on the right bank of the Tenasserim about seventy miles below Metta; we had ascertained that the stone containing the ore was in the Jawngwa, the mouth, or rather mouths of which are about eleven or twelve miles above Thewa. But it is impossible

to get up the bed of the Sawuga stream, nor is there any other way of getting to the site of the stone than by a path (called *too-law* from Thewa). Captain Harrison now finding that Thewa, or, as it is erroneously called in Mergui, *Tewa* was in my District, saw no reason for carrying on his investigations any further, so we parted here, he going on down the Tenasserim, and I going by land across the country towards the Saungwa, intending to cross over to the Upper Tenasserim, (Bing Khyoung) a journey of about seventy or seventy-five miles. In the first place, I was unfortunate in finding no guide who could shew me the stone. I had no time to make any preparations before leaving Tavoy for obtaining Guides and Elephants, and clearing the path, as Captain Harrison was pressed for time, and I thought it my duty not to let him go alone, as I believed the stone to be in Tavoy. My Karen, Myook, who knew where the stone was, accompanied us to Thewa, and was to have gone on with me, but he fell ill, and I was obliged to send him back up the Tenasserim. I succeeded in getting one Elephant and half-a-dozen men, and Mr. John Davies, Inspector of Police, and I started on the morning of the 4th March for the Sangwa. After struggling on nearly all day, I found that the undertaking was too arduous for this season of the year in the present state of the path and the jungle. The heat was most oppressive and the ground very difficult. The Elephant came along very well at first, but as we went on it seemed impossible that he could follow us, and the Karens thought that he could not,—only one Elephant, I believe, had ever been taken over previously, and not at this season of the year. Without the Elephant I could not have gone on, as he not only carried me occasionally, but the greater part of our kit.

3. As far as I could make out, the Saungwa is about twenty-five miles from Thewa. I returned therefore to the Thewa. On our way back a herd of Bison charged our Karen Coolies, who saved themselves by springing up some tall bamboos. The previous evening Mr. Davis encountered one not far from our hut, we got back to Metta by boats in four days. It was very hard work indeed coming up the stream, which is very shallow in some places at this season, and full of rapids. I regret to say that there is hardly any population along the river, only fifteen or sixteen houses on the banks between Metta and Thewa, and none in the interior behind the banks. Captain Harrison is making route survey of the whole course of the river. It runs through a very hilly country, but there are no fine mountains; the jungle is most dense; Elephants, Rhinoceros, Bison, and Buffaloes appear to be numerous.

4. A day or two after my return to Tavoy a Karen brought me some of the stone which he said was the same as that in which the Galena were first found, and I have the honor to forward it. He had heard of the enquiries about the ore this year, and had gone on an independant journey of his own to get it. He went across the country from the Tavoy, not the Tenasserim side, even a worse journey than the other. It appears that he was one of those who first took it to Mergui about 1855. I had almost forgotten to mention that we found some very hot Springs (sulphurated, not saline apparently,) about six miles from the Thewa, a boiling point thermometer which I had with me was not effected by it, and another marking up to 157° did not register high enough to shew the temperature.

From CAPTAIN W. P. HARRISON, Deputy Commissioner, 4th Class, Mergui, to COLONEL A. FYTCHE, Commissioner of Tenasserim Division, Moulmain,—(dated Mergui, the 24th March 1862)

SIR,—I BEG to express my regret that I have hitherto been unable to reply to your letter No. 88, dated 8th October 1861, regarding the supposed discovery of a vein of Galena in this Province. Sickness, which necessitated my absence from the Province for a month, and then the introduction of the new system of Police, prevented the possibility of my doing this before. I had however, in the meanwhile, taken care to make every enquiry here to find out the source of Assistant Surgeon Evezard's information, and discovered that the intelligent Karen to whom he refers was dead. I was told many fabulous stories of a place called the Htsoung Wah Creek, which have every reason to believe is the place called by Mr. Evezard the Sownlore Creek, and found that my nearest way to reach the place was by Palaw and Pulauk, and then crossing the country to the banks of the Tenasserim River to a place called Yay-wha or Thay-wah.

2. I have now the honor to report that I left Mergui on the 27th of January last, and proceeded by boat to Pulawh, thence I crossed on foot by jungle paths leading over a hilly country to the banks of the Tenasserim River. As so very little is known of this part, I made a rough route survey of my journey, and I hope to be able to prepare a Sketch to accompany this letter.

3. I descended the Tenasserim River for three days in rafts, the general course of the river being here from south to north to a place called Kyouktong. The river here is confined by hills and rapids, and falls are numerous, so that though I was nine hours actually *en route* every day, I did not accomplish more than twenty miles on an average.

4. From Kyouktong it was my intention to have crossed the great head which the Tenasserim River takes to the east to Thay-wah, but from the information I received, I found that I could not then reach Mergui in time to receive you on your tour of Circuit, and I was reluctantly obliged to abandon the attempt of any further search and return to Mergui. My shortest road then was by Tavoy. At Kyouktong, therefore, I procured a few canoes, and descending the river again for about thirty miles I came to Phaundaw, thence two days' walk of twenty-seven and nineteen miles brought me to Tavoy.

5. At Tavoy I most unexpectedly met you, and as I found that you were prevented from visiting Mergui again at that time, and that you would not be here for another month, I determined on continuing my search, and started in company with Major Stevenson for Yay-wah *viâ* Metta Myo.

6. The road to Metta Myo being well known and lying wholly in the Tavoy Province needs no description by me. At Metta we procured boats, and descending the river for five days halted at a place not far from the mouth of the Yay-wah Creek. The portayes were numerous, and in many places very difficult from the large rocks which

form the bed of the stream, amidst and over which the stream boiled and bubbled with the greatest impetuosity.

7. This place close to which a road crosses over the hills into Siam, I calculated by my route survey to be only four miles south of Tavoy, and there was no doubt then that we were in the neighbourhood of the place whence the Galena had been obtained. As this was clearly in the Tavoy Province, and as Major Stevenson was on the spot and acquainted with the necessity of a report being sent to you on the discovery of this vein of Galena, and as I found that I had probably only just sufficient time left in which to reach Mergui before your expected arrival here on the 20th instant, I left Major Stevenson to prosecute his enquiries on the spot and continued my descent of the Tenasserim River.

8. Eight days hard work of eight and nine hours a day brought me to Tenasserim, so that I fear the inaccessibility of the place where the Galena is said to have been found will prevent its being worked to profit and advantage.

9. The Sketch which accompanies this letter may I think be relied on, for when I came to plot my work I found that in the whole distance of more than 400 miles there was only a trifling error of three or four miles, but as the only instruments I could use from the way in which I was travelling were a Compass and Watch, and distance were all estimated by time, it cannot be called a Survey.

10. The exact position of the vein of Galena will probably be reported to you by Major Stevenson, and I have no doubt myself that the place whence Mr. Evezard procured the specimen he sent to the Medical Board is in the hills which form the watershed between the Tenasserim River Proper and that portion of it which is called the Bin Khyoung, and amongst which hills the streams named Trong-wah, Thay-wah, and Kayouktong take there rise.

11. The Tenasserim River from the town of that name to Mergui is taken from Surveys by Mr. Montgomerie and others. The coast line is taken from the published Chart of Captain Ross.

From Dr. F. N. Macnamara, Chemical Examiner to Government, to E. C. Bayley, Esq., Secretary to the Government of India, Home Department,—(No. 105, dated 2nd July 1862.)

Sir,—With reference to your letter No. 3069, I have the honor to report that the mineral therewith sent contains no Galena or other ore of lead. The lustrous black constituent of the mineral is black mica.

RESOLUTION.—The Government of Fort St. George applies for sanction to the grant of a gratuity of six months' pay (Rupees 360) to Mr. E. D'Souza, Head Clerk and Examiner in the Office of the Chief Engineer at that Presidency, on the grounds that Mr. D'Souza rendered efficient service in his Department, and that his services, after a period of eleven years and five months, were dispensed with in consequence of the abolition of the Proceedings and Collection Branch of the Chief Engineer's Office.

The Hon'ble the President in Council considers that such gratuities ought not to be given till the parties concerned have been full six months out of employ; but he desires that the Government of Fort St. George be informed that the application in question will be re-considered if Mr. D'Souza is not provided with another appointment within six months from the time of his discharge.

ORDER.—Ordered, that a copy of the above Resolution be forwarded to the Governments of Bombay, Madras, North-Western Provinces, and the Punjab, and to the Departments noted in the margin, with a request that the ruling therein contained, *viz.*, that gratuities to discharged Public servants ought not to be given before they have been six months out of employ, may be considered to be of general application, and that it may be communicated to the several Administrations and Departments under their control.

No. 696 *of* 1862.—With reference to Government General Order No. 399 of the 8th April 1862, the following Military Letter from the Right Hon'ble the Secretary of State for India, No. 209 of the 31st May 1862, is published for general information :—

MILITARY.
No. 209.

INDIA OFFICE;
London, 31*st May* 1862.

TO HIS EXCELLENCY THE RIGHT HON'BLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

MY LORD,—With reference to my Despatch of the 28th February, I have to inform you that, in reply to an enquiry addressed to the General Commanding-in-Chief, His Royal Highness has stated that the terms of the General Order forwarded with my Despatch above referred to, which exclude Officers of the late Indian Army serving in non-purchase Regiments of the Line from retirement on half-pay, cannot, in His Royal Highness' opinion, be modified without disadvantage; but that the privilege of exchange from one Regiment to another, subject, in each case, to the approval of Her Majesty, on the recommendation of the General Commanding-in-Chief, is equally conceded to all Officers whether belonging to purchase or non-purchase Corps, on the understanding that they become liable to the Regulations of the Class of Corps to which they at any time belong.

2. I took occasion to impress upon His Royal Highness the importance of adopting every precaution that in cases of exchange there shall be no serious disparity of age between the Officers exchanging, nor any other circumstance calculated to render the arrangement prejudicial to the interests of the Indian Officers who may have joined the non-purchase Corps. I observed that these Officers have been accustomed to look to promotion by rising in their regular Regiments by seniority among a fixed body of Officers, and that, while the permission to exchange into a purchase Regiment will, doubtless, be looked upon by many as a boon opening up to them a wider field of employment, and a better chance of promotion, there were others who might feel their chances of promotion prejudiced by an exchange among their seniors, unless such exchanges were regulated with due regard to their interests and prospects of promotion.

3. In reply I am assured by His Royal Highness that the effect which the age and standing of in-coming Officers would exercise upon the interests of Officers originally belonging to a Regiment, is always carefully considered before exchanges are sanctioned, and that particular attention will be paid to securing equality between Officers desirous of exchanging from purchase to non-purchase Corps.

I have, &c.,

No. 488.

TO HIS EXCELLENCY THE RIGHT HON'BLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

MY LORD,—Consequent on the recent alteration in the organization of the Indian Artillery and Engineers, the number of Lieutenant-Colonels and Lieutenants in those Corps has been somewhat altered. It has therefore been necessary to re-arrange the number of Officers in the abovementioned ranks who are to draw the higher and the lower rate of pay. Bearing in mind the proportions laid down in Lord Stanley's Despatch No. 139, dated 21st April 1859, the following numbers have been fixed, *viz.*,—

	Higher.	Lower

2. Since this Despatch was drafted I have received your Military Letter No. 257, dated 17th October last, on this subject. It is only necessary I should state in reply that I approve the decision at which you have arrived that, in calculating the proportion of Lieutenant-Colonels and Lieutenants of Artillery who are to receive the pay of Major and Second Lieutenant respectively, seconded Officers are to be kept out of view, and the proportion reckoned as though the Officers seconded were casualties.

3. The seconded Officers will be allowed the rate drawn by the Officers severally below them on the List.

20. You rightly suppose that my Despatch No. 488 of 31st December last, was inaccurately copied. The number of Lieutenant-Colonels in the Bengal Artillery to draw the higher rate of pay should have been twenty-one and not twelve, and the number of those of the same rank in the Bombay Artillery to draw the lower rate of pay should have been three and not eight.

FORT WILLIAM, THE 11TH JULY 1862.

THE Governor General in Council has received with profound regret the intelligence of the decease of EARL CANNING, Her Majesty's late Governor General and Viceroy of India, which melancholy event took place in England on the 17th of June.

His Excellency in Council feels convinced that the whole Community of this Country will unite with him in deploring the untimely death of this eminent Statesman, whose life, although he survived to quit these shores, has but too surely fallen a sacrifice to his devotion to the interests of India.

All will be sensible of the greatness of the loss which India sustains in the removal of one whose ripe knowledge and experience so well fitted him to give valuable counsel and assistance to Her Majesty's Government and Parliament on questions affecting the welfare of this great Country.

The Governor General in Council directs that the Flag of Fort William shall be lowered to half-mast high during this day, and that Twenty-one Minute Guns be fired at sunset from the Fort, the last Gun to be fired and the Flag to be dropped as the sun sets.

His Excellency in Council also directs that the same marks of respect shall be shewn at the other Seats of Government in India.

By Order of the Governor General in Council.

E. C. BAYLEY,
Secretary to the Government of India.

WEDNESDAY, JULY 16, 1862.

HOME DEPARTMENT.

No. 3488.

Fort William, the 14th July 1862.

Notification.—The following Rules, which have been prescribed by the Secretary of State in Council of India, under the provisions of the Acts XXIV. and XXV Vic., Cap. 104, Section VI., in regard to the salaries, furloughs, retiring pensions, and expenses for equipment and voyage of the Chief Justice and Judges of the High Court of Judicature for the Bengal Division of the Presidency of Fort William, are published for general information.

Regulations by the Secretary of State in Council of India, under the provisions of XXIV. and XXV. Vic., Cap. 104, Section VI., respecting the salaries, furloughs, retiring pensions, and (where necessary) expenses for equipment and voyage of the Chief Justice and Puisne Judges of the High Court of Judicature for the Bengal Division of the Presidency of Fort William.

Salaries.

The Chief Justice shall be paid a salary of Company's Rupees 72,000 per annum, each Puisne Judge a salary of Company's Rupees 59,000 per annum, such salaries being payable only in India.

Furloughs.

A furlough for the period of one year, with an allowance of £1,000, payable by quarterly payments, shall be allowed to the Chief Justice and to each Puisne Judge of the High Court, after seven years actual service, as Chief Justice, or Chief Justice and Judge, or Judge of the said Court.

2. Judges of the High Court, selected from the Covenanted or Uncovenanted Service, shall have their furloughs and leaves of absence governed by these Rules only so long as they remain Judges of the High Court.

3. The furlough granted under these Rules to a Judge selected from the Covenanted Civil Service shall be exclusive of the furlough to which such Judge is entitled under the Rules applicable to furloughs allowed to Members of such Service.

4. If a Judge of the High Court selected from the Covenanted Civil Service, who has not taken his furlough under the Rules applicable to his branch of the Service, before his appointment to the High Court, shall take such furlough within one year after the expiration of his furlough under these Rules, the furlough taken by him as Judge of the High Court shall be reckoned as so much time of his furlough under the Rules applicable to the Covenanted Service, and the amount drawn by him shall be adjusted with reference to such Rules by deductions from the allowances payable to him as a Civil Servant on furlough.

5. A Chief Justice or Puisne Judge, during his absence on furlough, shall retain his office, but such furlough shall not be reckoned as actual service in calculating the period of service entitling the Chief Justice or Puisne Judge to a pension.

6. Leave may be granted by the Governor-General in Council to the Chief Justice or to any Puisne Judge of the High Court, under Medical Certificate, for a period not exceeding six months; and such Chief Justice or Puisne Judge, during his absence, shall retain his office, and shall, on his return and resumption of his duties, receive half his salary for the period of such absence; but if his absence shall exceed six months, his office shall be vacated.

7. Leave of absence under the last preceding Clause shall be reckoned as actual service in calculating the period of service entitling the Chief Justice or Puisne Judge to a pension.

8. If a Chief Justice or a Puisne Judge of the High Court shall be absent, at any one time for a period exceeding one year, his office shall be considered to be vacated.

9. The "short leave on private affairs" provided for by Sections XII. and XIII. of the existing Covenanted Civil Service Leave Rules shall be held applicable to the Judges of the High Court.

Retiring Pensions.

A Chief Justice, after an actual service of twelve years as Judge of the High Court, of which at least six shall have been in the office of Chief Justice, shall receive a pension not exceeding £1,500 per annum.

2. A Puisne Judge, on the same terms as to length of service, shall receive a pension not exceeding £1,200 per annum.

3. A Chief Justice or Puisne Judge, compelled to retire on Medical Certificate after seven years actual service, shall receive a pension not exceeding one-half the amount of pension allowed for the full period of service.

4. In the event of a Judge of the High Court, selected from the Covenanted or Uncovenanted Services, receiving a pension under these Rules, he will not be entitled to any pension or retiring allowance under the Rules applicable to Covenanted and Uncovenanted Servants respectively.

5. When a Judge of the High Court, selected from the Covenanted or Uncovenanted branches of the Civil Service, is permitted to retire before completing the full period of service entitling him to the pension of a Judge of that Court, he shall, on retiring, receive such a pension as he would be entitled to under the Rules applicable to Covenanted and Uncovenanted Servants respectively, reckoning the period during which he shall have served as Judge of a High Court towards his time for such pension.

6. Provided, however, that if a Judge of the High Court, selected from the Covenanted or Uncovenanted branches of the Civil Service, shall be compelled to retire on Medical Certificate after seven years actual service, he shall be allowed the option of taking his pension or retiring allowance either under these Rules, or under the Rules applicable to the Service to which he belongs.

7. A Judge of the High Court, selected from the Covenanted Civil Service, shall be required to continue his subscriptions to the Civil Annuity and Civil Service Funds.

Expenses of Equipment and Voyage.

For the purpose of defraying the expenses of equipment and voyage from England, there shall be allowed to a Chief Justice the sum of £1,000, to a Puisne Judge £800. But such allowance shall not be made to any person appointed to the office of Chief Justice or Puisne Judge, who, having been in India, may be, at the time of his said appointment, in the United Kingdom, with the intention of returning to India.

The foregoing Rules will not apply to the Judges who have been transferred to the High Court from the Supreme Court, who will be however at liberty to avail themselves of the privileges as to furlough, if they assent to the periods of service prescribed by the Rules, to qualify for the pension of a Judge of the High Court. Nor will the Rules respecting salaries affect those Judges of the late Sudder Court who are at present in receipt of higher allowances than Rupees fifty thousand per annum.

By Order of the Governor-General in Council,
E. C. Bayley,
Secy. to the Govt. of India.

AGREEMENT WITH THE BANK OF BENGAL.

Articles of Agreement made the second day of May in the year of our Lord 1862, between the Secretary of State for India in Council of the one part, and the Bank of Bengal of the other part: Whereas by the Act XIX. of 1861 of the Legislative Council of India certain provisions have been made for the establishment of a Paper Currency and the payment of the Government Promissory Notes to be issued in virtue of the said Act, and the Governor-General in Council was thereby authorized to establish in British India Circles of Issue, and in each Circle to appoint some one City or Town to be the place of issue of Notes, and by the said Act it was declared lawful for the Governor-General in Council, from time to time, by rules to be published in the *Government Gazette*, to make such arrangements through any Officers of Government, or with any persons, Banks or Bodies corporate as might be required to regulate and facilitate the issue and payment of the said Promissory Notes. And whereas by a Memorandum of Agreement bearing date the twenty-sixth day of September 1861, and made between the parties hereto, certain terms were agreed to, having for their object the transfer to the said Bank of the business of the Government Treasury at Fort William and the superintendence and management by the said Bank for the Government of India of the issue of the Government Paper Currency for the Circle of Issue of Calcutta, and it was thereby, amongst other things, agreed that if at any time during the continuance of that Agreement, the said Bank should establish a Branch Office at any Town or place other than Calcutta, and the Governor-General of India should offer to the Directors of the said Bank for the time being, and they should, on behalf of the said Bank, accept the business of Bankers to the Government of India for the District or locality within which such Branch should be established, or the business of issuing and circulating the Government Paper Currency within such District or locality, then, and in every such case, the business so arranged to be taken up and performed by the said Bank should be carried on under and subject to the provisions of that Agreement, and on the basis of certain Clauses cited in the margin thereof, being the third and fifth paragraphs of the Government Memorandum of the twentieth of March 1861, relating to the establishment of such Branch Banks, except in so far as the provisions of that Agreement, or of the said Clauses, might be modified or altered by any special Agreement which the parties thereto might enter into in reference to the business so to be carried on at the particular Branch Bank: And whereas the Bank of Bengal are about to establish a Branch Bank at (amongst other places) Benares, and the Governor-General in Council has offered to the said Bank (who have accepted the same) the business of Bankers to the Government of India for the District of Benares, and the terms on which such business shall be performed have now been finally settled and arranged between the Governor-General in Council acting in the premises on behalf of the said Secretary of State, and the Directors of the said Bank: Now these Presents witness that for the purpose of carrying out the said arrangement, and in consideration of the payments and covenants hereinafter respectively mentioned and contained, and by and on the part of the said parties to these Presents respectively to be paid and performed, each of them, the said Secretary of State in Council and the said Bank of Bengal, doth and do hereby for himself and themselves and his and their respective successors, covenant and agree with the other of them and their and his respective successors in manner following, that is to say:—

1. That the Bank of Bengal shall and will forthwith establish a Branch Bank at Benares, and will provide themselves with suitable Offices and buildings in the said City in a situation as near to the Revenue and other Public Offices as conveniently may be.

the Supreme Government of India and the Government of the North-Western Provinces, heretofore transacted at the Collectorate of the said Station of Benares, shall be carried on and transacted by the Branch of the Bank of Bengal so to be established at Benares as aforesaid, subject to the provisions of this Agreement and to such orders and directions with regard to receipts and payments as may, from time to time, be given to the said Branch Bank, or to the Bank of Bengal, by the Governor-General in Council, or any of the Officers of the Government of India, or of the Government of the North-Western Provinces authorized in that behalf, and for the purpose aforesaid such account or accounts shall be opened in their Books by the said Branch Bank with the Government of India and the Government of the North-Western Provinces as the said Government of India shall, from time to time, direct.

3. That from and after the day so to be appointed by Notification as aforesaid, the Cash Balance then in the Government Treasury at Benares shall be deposited with the Branch Bank at Benares, who shall also thereafter receive and hold for the said Government of India and Government of the North-Western Provinces, respectively, and subject to the order of these Governments, respectively, all Monies and Balances which, but for these Presents, would have been received or held by the Collector of the District of Benares, and the said Branch Bank at Benares shall transact all such business for the Government of India and Government of the North-Western Provinces, respectively, regarding the receipt, collection, payment, and remittance of Money and Securities and other matters as is usually transacted by Bankers for their Customers, or shall be *bonâ fide* required for the exigencies of the Government and for all Departments of the Public Service at the Station of Benares, and also all such business regarding the receipt, collection, payment, and remittance of Money and Securities for and on behalf of Officers in the different Government Departments as has heretofore been usually transacted by the Collector of Benares, and shall and will transact all such last mentioned business in such manner, in respect both of Government and individual Officers of Government, as may be, from time to time, required by the existing orders of Government, after due notice thereof given by the Collector to the said Branch Bank.

4. 5. That so long as the average Cash Balance for any month in the hands of the said Branch Bank at Benares shall not exceed the average amount of Rupees five lacs, the said Branch Bank shall be at liberty to use and employ such Balance, subject to the provisions of the Charter Act of the Bank of Bengal, or any future Act relating to the said Bank, and to appropriate the profit arising from such employment, without being charged with any interest in account, provided always that it shall be in the power of the Directors of the Bank of Bengal, with the sanction of His Excellency the Governor-General in Council, to alter, modify, or increase the proportion of the aforesaid Balance to be specially set aside for cashing Notes herein provided.

6. That when and so often as the monthly average Cash Balance shall exceed Rupees five lacs, the Bank of Bengal shall forthwith set aside such excess or surplus in Cash, to be kept in a separate reserve, on account and subject to the instructions of the Government of the North-Western Provinces, or shall, at the option of the Directors and at the risk of the Bank, invest such excess or surplus on account of the Government of the North-Western Provinces, either in the purchase of Government Securities or Railway Debentures guaranteed by Government in the name of the Collector of the District of Benares or of such other Officer as the Government of the North-Western Provinces shall, from time to time, direct, or in the discount of Government acceptances or other claims against Government payable at Benares, and so that such excess or surplus shall be withdrawn from employment as part of the General Funds of the Bank, and so on, from time to time, as often as an uninvested surplus Cash Balance, above Rupees five lacs, shall, on the taking of the monthly average, appear to be in the hands of the Bank, and the said Bank of Bengal shall at all times be answerable and accountable to the Government of the North-Western Provinces for the surplus Cash Balance for the time being so set apart, or invested at the risk of the Bank as regards realizing the Securities, and shall be entitled to draw and apply the interest, dividends, or profits arising from such investments, to their own use, but the safe custody of such surplus Cash Balance, so long as the same shall remain uninvested, shall be at the exclusive risk of Government in the case of loss from war, disturbance, or unavoidable accident.

7. That when and so often as the Cash Balance in the hands of the Branch Bank at Benares shall, on the taking of the monthly average, appear to have been less than the sum of Rupees three lacs, then, in addition to the profit which the said Bank may acquire by the employment of such Balance free of interest, an additional allowance or remuneration by way of compensation shall be made to the Bank of Bengal by the payment, by Government, of interest on the difference between the amount of the actual Balance of Government in the said Branch Bank, exclusive of the proportion specially set aside as a reserve for Notes aforesaid, and the sum of Rupees three lacs, the interest being calculated at the average rate of interest paid by the Public on the fixed loans at the said Branch Bank during the month.

8. That all Returns furnished by the said Branch Bank to the Head Office of the Bank of Bengal, as also all Official Reports of the Bank's Inspector on the said Branch shall, at all times, be accessible to the Auditor appointed by the Government of India under Clause 6 of the Agree-

ment with the Bank of Bengal hereinbefore mentioned and in part recited; and it shall also be in the power of the Government of the North-Western Provinces, at any time and as often as they may think fit, to cause the amount of Cash in reserve held on account of the Government, and the accuracy of the Government Balance in Cash or Securities, to be inspected and verified by any Officer duly authorized for that purpose, but not otherwise to interfere with the ordinary Banking operations carried on at the said Branch, and the Report of such Officer, if such as to require on the part of the said Bank an explanation, shall first be laid before the Directors of the Bank of Bengal to enable them to furnish any explanation or further information touching any of the matters referred to in the Report, and such Report, together with the explanation, shall then be submitted to the Governor-General in Council, whose order, decision, or finding on such Report, shall be binding and conclusive on the said Branch Bank and the Bank of Bengal, respectively.

10. That the whole responsibility for any loss or damage that may be occasioned by, or arise in respect of, the wrongful payment, exchange, or satisfaction, through mistake or otherwise, at or by the said Branch Bank, of any Government Currency Notes which ought not to be paid, exchanged, or satisfied, or of any forged or spurious Notes purporting to be Government Currency Notes, or in respect of the forgery or alteration of any Government Currency Notes, or in respect of any error or mistake committed by the said Branch Bank, or by any of its Officers or Agents, in conducting the Government Banking business at Benares aforesaid, shall, as between the said Secretary of State for India in Council and the said Bank of Bengal, rest solely and entirely with, and shall be borne by, the said Bank of Bengal, who shall have no claim upon the said Secretary of State in Council for compensation or indemnity for or in respect of any such loss.

NOTIFICATION.—*The 9th July* 1862.—The Hon'ble the Lieutenant-Governor of Bengal has been pleased to sanction the following Rules for the guidance of the Superintendent of Stationery and of all Public Officers who are authorized to indent upon the Government Stationery Office, and to direct that they be published for general information as superseding all existing orders relating to that Department :—

Rules for the Superintendent's Office.

I. The Superintendent of Stationery, under the general supervision of the Board of Revenue for the Lower Provinces, has the entire charge and management of the Stationery Office.

II. The Superintendent, with the approval of the Board, enters into contracts for the supply of Stationery to this Store. All articles not included in the contracts which it may be necessary to procure are purchased by the Superintendent at his own discretion, and he is responsible for the quality of such articles

III. To enable the Superintendent to make purchases he is supplied monthly, on application to the Accountant-General, with letters of credit on the Bank of Bengal. He submits monthly, for the Board's audit, a Statement of his expenditure, together with the bills of purchase.

IV. The Superintendent is responsible for the due care and preservation of the Stationery Stores. He is allowed a Store-keeper, and Deputy Store-keeper or Packer, from whom he may require Security, for his own protection, to the extent of Rupees 20,000 from the former, and Rupees 2,000 from the latter.

V. The Superintendent corresponds directly with all Officers who receive supplies from the Stationery Office. But Circular Letters containing general instructions are submitted for the Board's approval previous to issue. All differences which may arise between the Superintendent and Indenting Officers are referred for the decision of the Board.

VI. The Indents from Public Officers upon the Stationery Office are to be drawn out by Indenting Officers, and supplied by the Superintendent, according to the scale approved by Government and in conformity with the following Rules :—

Rules for Public Officers indenting upon the Superintendent of Stationery.

VII. The following Officers are authorized to indent upon the Government Stationery Office :—

All Officers in charge of independent Offices whose appointments are published in the *Government Gazette*. Also the following Officers of the Supreme Court :—

Administrator-General.
Master and Registrar.
Clerk of the Crown and Prothonotary.
Sworn Clerk.
Receiver.
Chief Interpreter.
Clerks to the Judges.
Crier.
Coroner.
Taxing Officer.

Chief Clerk of Insolvent Court.
Sheriff of Calcutta.
Commanders of Government Vessels.
Officers specially authorized to draw supplies of Stationery from this Store.

NOTE.—All Public Officers not authorized to indent on the Stationery Office may be supplied with Stationery by the Superintendent at a charge of 5 per cent. above the cost of the articles supplied.

Form of Indents and directions for forwarding them.

VIII. A scale has been drawn out (A) for regulating the supply of Stationery for all Public Officers, in accordance with which Indents must be framed and submitted in the Form prescribed (B), the certificate at the foot of the latter being duly signed.

No other than printed Forms of Indent, which can be obtained from the Superintendent's Office, should be used; nor should a transmitting letter be sent with the Indent, except when explanation is required to be given which cannot be written on the Indent.

IX. The abovementioned scale is intended to apply to Public Offices of all Departments, except the Hospital Department, for which a separate scale (C) is sanctioned.

X. In cases where the full quantity and superior description of Stationery allowed by the scale is not necessary it will be the duty of the Indenting Officer to modify his Indent accordingly.

XI. Mofussil Officers indenting will be careful to fill up accurately the label on the Form of Indent, designating the address to be attached to the cases. When this is omitted the responsibility of non-receipt or delay in the arrival of the Stores will rest with the Indenting Officer.

XII. As a general rule all Indents will be for the Calendar year, and all the columns in the Form must be duly filled up. In emergent Indents, for which the same Form is to be used, the 3rd, 5th, and 6th Columns only need be filled up. But emergent Indents should be resorted to as seldom as possible, and the explanation of their necessity should be full. Where the explanation is not satisfactory the Superintendent of Stationery is authorized to disallow the Indent.

3rd.—Balance in hand.
5th.—Quantity now indented for.
6th.—Number of Assistants, &c.
NOTE.—All Indents for paper required for printing purposes must be submitted separately to and those for the ordinary use of the Office.

XIII. Annual Indents from all Offices above Allahabad should be despatched so as to reach the Superintendent's Office on or before the 1st of August of the year preceding that for which the supply is required. From all other Offices they should be sent so as to reach him by the 1st of October.

XIV. Indents are to be forwarded direct to the Superintendent by all Officers except those named below, who, on account of the expensive and professional nature of the articles required by them, and because the scale is no guide to the proper supply, must submit theirs through their Official superiors, who will examine, countersign, and forward them to the Stationery* Office, that is to say,—

* NOTE.—Indents for Mathematical Instruments, not being common Compasses and Parallel Rulers, are to be forwarded to the Superintendent of the Mathematical Instrument Department.

Officers of the Departments of Public Works, through the Superintending Engineer of the Division.

Officers attached to the Great Trigonometrical Survey, through the Surveyor-General.

Officers of the Revenue Survey, through the Deputy Surveyor-General.

Officers of the Canal and Roorkee College Departments, through the Local Head of those Departments.

XV. The Superintendent of the Alipore Jail Press will obtain paper from the Stationery Office for all Forms required from him for the Public Service. Officers indenting on the Alipore Jail Press for Forms should apply through the Stationery Office, but should not forward to the Press paper for the Forms which they may require.

XVI. Should the Superintendent of the Press consider that the documents indented for can be supplied upon paper of a smaller size, or less expensive description than that specified in the Indent, it will be his duty to submit a proposition to that effect to the Head, at the Presidency, of the Department to which the Indenting Officer belongs, who will decide upon the point in question.

Instructions to be attended to in receiving supplies of Stationery.

XVII. The Superintendent of Stationery will advise the Indenting Officer when and how his supply of Stationery is despatched, noting particularly the address (which will be copied from the label on the Indent) to which it is consigned. Should there be any error in the address so notified, or should the despatch not reach its destination in due course, the Indenting Officer must take such steps as may be necessary for the correction of the error in the address, and for securing the receipt of the supply despatched, communicating at the same time with the Superintendent of Stationery if he considers it necessary.

XVIII. On the arrival of the supply the Indenting Officer should have the packages placed in a dry and properly protected place prior to their being opened and counted out as soon as can conveniently be done.

XIX. The packages must be carefully opened and their contents counted out in the presence of the Head of the Indenting Office, who is required to watch the process, certifying the same at the foot of the receipt. The receipt must then be signed and immediately transmitted to the Superintendent, with a detail of such articles as ought to be in the case, according to the list received from the Superintendent, but which are not found in it. The transmission of the receipt must not be delayed pending the reference to the Stationery Office regarding such short receipts, which will form the subject of a separate correspondence.

XX. Officers who have Covenanted Assistants may employ these Assistants to supervise the unpacking and counting of the supply, and in the Government Secretariats, Boards, and Sudder Courts, this duty may be performed by the Registers. In all other Offices in case of the absence on duty of the Head of the Office, or other sufficient cause, the packages may be opened by the Head Clerk or principal Uncovenanted Assistant. In all these cases the certificate must be signed by the person who opens the packages, and countersigned by the Head of the Office.

Adjustment of short receipts.

XXI. The liabilities for short receipts will be adjusted as follows:—

The Superintendent of Stationery will submit to the Board, annually, a Statement of short receipts classed under three heads, A, B, and C.

The value of trifling differences contingent upon excusable accidents will be included in A, and passed by the Board to be written off to Profit and Loss in the accounts of the Superintendent.

The liability for short receipts where the supplies are certified to have been opened and duly examined

in the presence of the Head of the Office will come under head B, and rest with the Superintendent of Stationery and his employés.

For the value of short receipts where the provisions of these Rules shall not have been strictly observed, which will be shewn under head C, the Receiving Officer will be held responsible.

XXII. The above Statements, with the Board's orders on them, will then be sent to the Accountant's Office for adjustment.

In cases where the Stationery Office is held responsible the amount will stand at the personal debit of the Superintendent until recovered by him from the party responsible to him.

When the Indenting Officer is held liable, as under head C, an Extract from the Statement will be sent to the Civil Auditor's, Military Auditor-General's, or Accountant's Offices, as the case may be, with a view to the necessary steps being taken for the recovery of the amount under the general Rules in force in those Offices for the recovery of other dues to Government.

XXIII. Whenever the Receiving Officer may have reason to consider that the packing or transport of the cases has been improperly or carelessly performed he is required to intimate the same, whether actual injury has resulted or not, to the Superintendent of Stationery, mentioning the reasons for his opinion, with suggestions for future prevention. The Superintendent will take steps to obviate a recurrence of the neglect pointed out.

XXIV. On receiving an Indent from an Office at the Presidency the Superintendent will fix a day for the delivery of the Stationery, Wednesdays and Saturdays being expressly set aside for the delivery of Stationery to Presidency Offices. At the time fixed an Assistant from the Indenting Office will attend at the Stationery Office to take charge of the supplies. Objections must be made before the supplies leave the Office, and bottles, baskets, &c., belonging to the Stationery Office must be returned.

Complaints.

XXV. Complaints as to the quality of supplies received should be accompanied by an average sample of the article complained of, duly attested by the complaining Officer, as being part of the supply furnished by the Stationery Office on such a date, and the marks on the articles or covering of the packages should be carefully ascertained and reported. To prevent fraudulent substitution of other than the Government supplies, these complaints can only be admitted when preferred within seven days of the opening of the cases. Complaints of good articles being damaged in transit should be accompanied by the Officer's opinion, and the grounds of it as to whether the damage was caused by bad soldering, careless packing, or from mal-treatment of the package in the Post Office, Steamer, or other mode of conveyance.

Contingent Bills.

XXVI. In consequence of the arrangements now made for the timely Indent for, and supply of, Stationery from the Government Office to Public Offices in all parts of the country, the necessity for purchasing supplies on the spot will rarely occur. Such purchases may occasionally be indispensable, but will only be admitted where the case is shewn to be one of great emergency, and the Declaration, upon honor, at the foot of the Bill is duly signed. Public Officers are desired to borrow from other Offices, pending the arrival of their own supplies, rather than resort to local purchase, giving early advice to the Superintendent.

XXVII. The actual expenditure on account of such articles as are not supplied on Indent* by the Superintendent of Stationery will be included monthly in a Contingent Bill (Form of which will be supplied from the Stationery Office), and forwarded in duplicate to the Superintendent of Stationery, whose countersignature will be sufficient authority for the expenditure being charged in the Cash Account of the Office transmitting it.

* NOTE.—Serampore Paper can always be supplied and should be indented for in the Annual Indents.

The Contingent Stationery Bill of any Office which has no Treasury of its own will be payable, when countersigned by the Superintendent, at the Treasury from which the salaries of the Office are disbursed. The above Rule is intended to apply only to Officers located at Sudder Stations, and not to Moonsiffs, Darogahs of Police, of Salt Chowkies, and similar Mofussil Officers.†

† NOTE.—It applies to *all* Joint Magistrates as well as to Sub-Deputy Opium Agents.

XXVIII. In cases where the Superintendent of Stationery finds that he can supply any article of Stationery at a lower rate than that charged in the Contingent Bill of any Office, he will intimate the same to the Head of that Office, who will then abstain from making local purchases and indent upon the Stationery Office for the articles indicated by the Superintendent.

The Superintendent can supply Country Paper of good quality at 2 Rupees 8 annas per Ream.

XXIX. In the Stationery Bill above described will be included all charges for Vinegar, Glue, Paste, Country Ink, Twine, Thread, Stamping Ink, Stamping Inkstand, Talc, Cloth for binding Records.

XXX. Every Officer in charge of an independent Office should submit monthly *one* Stationery Contingent Bill, shewing, under distinct heads, the charges for the several Departments in his Office. Every Bill should contain *all* the charges incurred during the month for which it purports to be drawn. Any item charged on account of previous months to be disallowed.

Prevention of abuses.

XXXI. Care must be taken by the Head of every Office to prevent the use of the Government Stationery in any other than the Public Service. The Stores of Stationery should be placed in charge (under lock and key) of a responsible Writer or Assistant in the Office. A Book (which is to be sent, when required for inspection, to the Superintendent) is to be kept by him of all issues of Stationery in the Form prescribed and supplied by the Stationery Office, and such issues are to be acknowledged in it by the signature (in initials) of the Officer or Assistant who takes the articles. Any abuse apparent to the Assistant in charge of the Stationery is to be brought to the immediate notice of the Head of the Office.

XXXII. Packing Cases received from the Stationery Office are to be sold, and the proceeds credited to the Superintendent of Stationery in the Cash Accounts of the Office, the amount so credited being communicated to the Superintendent.

Further, all such Subordinates are directed, whenever moving from one place to another on duty, to enquire for covers to their address at every Post Office which they may happen to pass, and also to mention where such covers are to be sent after their departure.

Government of Bengal.

Vernacular Education in Bengal.

From W. S. SETON-KARR, ESQ., Officiating Secretary to the Government of Bengal, to W. GREY, ESQ., Secretary to to the Government of India, Home Department, dated the 19th October 1860.

I AM directed, with reference to your several letters noted in the margin, to forward the views of the Lieutenant-Governor on the subject of providing cheap Schools for the masses, and of improving and extending Vernacular Education generally.

(Docket) 16th of December ,,
21st of February 1860.

2. The Lieutenant-Governor has referred to Lord Stanley's Despatch on the subject of Education generally, which was received after the first of your letters under acknowledgment had been forwarded, and in which various important points connected with Education are discussed; but the present communication will be confined to an exposition of his views regarding Vernacular Education for the lower classes, and to the question of the Funds from which such Education must be supplied. The Lieutenant-Governor, in pursuance of the instructions contained in your letter of the 17th of May 1859, has consulted, on this important subject, not only the Officials of the Educational Department, but several other Gentlemen, Europeans and Natives, who have either had practical experience in dealing with Village Schools, or have always shewn an interest in the elevation and well-being of the Ryots. The information given by the above Gentlemen, whose names are entered in the margin, is herewith forwarded, and aided by their opinions, as well as by a consideration of the means hitherto employed for this object, the Lieutenant-Governor is now enabled to explain the plan which he recommends for the attainment of the object in view.

3. The Lieutenant-Governor clearly understands the intention of the Government of India, and of the Home Government, to be, that Grants-in-aid are not to be applied to the extension or support of purely indigenous Vernacular Schools, but are to be reserved for English Schools, for Anglo-Vernacular Schools, and for Vernacular Schools of a comparatively high order. The present object then is to devise some scheme for the instruction of the lower agricultural classes which may be tried at once experimentally, but shall be capable of easy extension; and be not ill adapted to any existing system; suitable to the wants of the people; not calculated to offend their prejudices; and, above all, which shall not be attended with immoderate expense, not only at first, but when developed to its fullest extent.

4. Bearing this in mind, the Lieutenant-Governor has come to the conclusion that our best chance of success lies in basing a new scheme on the indigenous Schools already existing throughout the Districts of Bengal, and, indeed,

to be found, more or less, in every part of India. He has fully considered everything that can be said, and that has been said, to the disparagement of these primitive Institutions. The poor appearance of the Sheds used as School-houses; the ignorance, obstinacy, and prejudice of the Gurus who preside over them; the almost total want of School Books; the very humble character of the instruction generally imparted, and the poverty of the Scholars have not been overlooked. But if we are to convey instruction of any kind to the lower orders we must not, the Lieutenant-Governor thinks, affect to disregard the kind of instruction that the people have hitherto sought and approved. All attempts made to reach the mere Agriculturist, however praiseworthy, and by whatever amount of talent and energy supported, must fail wherever they are not in unison with the habits and feelings of the people. The kind of instruction which the people naturally desire must not be forgotten. The aid of the Village School Masters must be invoked. The possibility of elevating and improving both the Schools, and the race of School Masters, should not be hastily disregarded. Any scheme involving the abolition of all existing Village Schools, and the deprivation of all the School Masters, must create for itself obstacles that may be insurmountable.

5. The ground-work of the plan which the Lieutenant-Governor contemplates must, therefore, be the present indigenous Schools. That they exist in numbers, in Lower Bengal especially, is unquestionable. Mr. Long estimates that in Bengal alone there are 30,000 Village Gurus, and indeed all persons who have been consulted, at any time when the question of Vernacular Education has been under consideration, from the time of Mr. Adam downwards, however they might differ as to the possibility of improvement, have had no doubt as to their existence, or as to their numbers. The Lieutenant-Governor, then, approving only of a scheme which shall openly recognize the existence and utility of these Institutions, would set about this recognition in the following manner.

6. Lists of every Village School in each Zillah that may be included in the scene of operations should be prepared by the Education Department in communication with the District Officers. The Inspector, aided by Deputy Inspectors, should then proceed to make his selection of those Schools which he may think most important and most capable of improvement. In doing this he would naturally be guided partly by personal, and partly by local considerations. In this selection much will depend on the judgment and tact of the Inspecting Officer.

7. When the requisite number of Schools shall have been selected, the Inspector must endeavor to induce the Gurus, or the Proprietors and Supporters of the Schools, who are often Talookdars and middlemen, to submit to periodical inspection. To this end the Lieutenant-Governor would not propose that any pledge should be demanded, from either School Masters or Proprietors, as to the repairs of the School-house, or the number of Scholars; or that any weekly or monthly Returns or Statements of any kind should be forwarded to the Inspectors. This Officer, before admitting the School on his List, must take care to satisfy himself that there is a School-house in existence, and that it has a fair daily attendance of Scholars; also that the Master is willing to receive the support of Government. The erection and repairs of the School-house being left to the inhabitants, the Teacher would be chiefly remunerated, as he is now, by the fees of the Scholars. In this way the cost of the institution of the School, and the greater part of the expense of its maintenance, being still defrayed by the people of the neighbourhood, the scheme, even when fully developed, need not be impracticable from its costliness. But, in order to enlist the sympathies of the Teacher, and to overcome his prejudices, as well as to raise the character of the Institution, the following means are suggested:—Books should be supplied to the Schools at a very low price. These Books should contain, in a compact form, all that has hitherto been taught at such places by Dictation, namely, Arithmetic, Agricultural and Commercial Accounts, Forms of Agreements, Quittances of Rents, Bonds, &c., and even models of the complimentary or formal letters which inferiors constantly address to their superiors. The Lieutenant-Governor does not feel warranted in despising this last kind of instruction, because it is not conveyed to the son of an English Peasant. It is sufficient for our purposes that such instruction has been imparted in India for generations. The above course will enable any lad of ordinary intelligence to read and write correctly, and to see that he is not cheated in his Accounts by the Mahajun or the Agent of the Zemindar. A Book of this kind has been in use in some Schools near Calcutta; and, as being in every way suited for the purpose, should be largely supplied to other similar Schools.

8. On this rude and primitive foundation the Lieutenant-Governor would build a structure of a better kind, taking great care, however, that the higher and better instruction offered should not be too much in advance of the requirements of the people. He would rigidly exclude all attempts at English Instruction; or at imparting to Bengal Village Boys information which can in their case serve no purpose but to puzzle their heads with strange names and foreign ideas. He would restrict the improved course to the measurement of land; to some short Bengali Grammar of the simplest kind; and to the very first Elements of Geography, and of Indian History. If the sons of Ryots, in addition to the present course of Village instruction, can be induced to read Books of instruction and amusement (which must be for the most part written for the purpose); to write with neatness on leaves or paper; to measure their own lands correctly; and to know a little about the existence of other Countries and the history and condition of their own, with the prospect of a better Education for their sons, a great step will have been made.

9. When the selection of certain Schools has been made, and when it has been formally announced that the course of instruction shall not be hastily changed, and shall be supplied with the mechanical aids of which it has hitherto been destitute, it will still be necessary to secure the co-operation of the Guru. But, to this end, the Lieutenant-Governor thinks that any compulsory examination, which some Gentlemen have recommended to be forced on such persons, would defeat the object which we have in view. It is useless to expect that the ordinary race of Village Teachers would submit to any ordeal of the kind. All that can be done is, by conference, by judicious advance, and by holding out hopes of reward to stimulate the best men of the class to greater

exertion, and to lead them to adopt an improved course of study. This, it must be conceded, is the one difficulty of the scheme. But it does not seem an insurmountable difficulty. When a certain number of Gurus shall have been induced to adopt the improved system, the feeling of the people will be so much in favor of it as to force it upon the remainder, or to drive them out of employment.

10. It is here, of course, that the substantial aid of Government must come in, and there can be no inducement so powerful as a payment of a reward in cash. The Lieutenant-Governor would take care that these rewards should be quite distinct from any system of Grants-in-aid. They would be distributed within a fixed limit by the Inspector on his being satisfied that the School had been well attended by Scholars, who had passed a fair examination in the subjects to which it is proposed in this letter to limit the Education of the Ryot. In this way the minute Returns, the lengthy Statements, and the constant supervision necessary in the system of Grants-in-aid, and noticed as prejudicial by Dr. Mouat in his letter of the 20th of August 1859, would be quite unnecessary; while, on the other hand, care must be taken that rewards are not given for mere musters of Boys collected together to make a good shew. Visits should take place only as often as is necessary for a fair knowledge of what is going on. We know that, when the inhabitants want a School, they will maintain one; if the son of an Agriculturist wishes to learn anything at all, he will attend such a School; and if the Guru is capable of teaching anything at all, he will find Scholars. It is to the improvement of such Schools, when brought into existence by the voluntary act of the inhabitants, that the State must look. The reward given to the Guru need in no case exceed half the fees which he receives from his Scholars, or say a sum of Rupees 30 or Rupees 36 a year; and often it need not amount to so much. Taking the average of a Teacher's earnings at 5 Rupees a month, the sum spent in rewards to each School Master would not on an average exceed 30 Rupees a year, and the Lieutenant-Governor believes that the prospect of such a sum would stimulate all but the most apathetic and bigotted Teachers. If any Guru proves impervious to advice, encouragement, or the hope of reward, or having promised largely fails to fulfil his promises, he will at once be struck off the Government Lists. But if, by advice, conciliatory treatment, Books and substantial rewards, even a dozen Schools were led to adopt a better and higher kind of instruction in any one Zillah, the latent energies of neighbouring School Masters would in time be excited, and if a scheme so based should once gain a secured footing, there might eventually, the Lieutenant-Governor thinks, be no limit to the extension of Vernacular Education, except the wants of the people.

11. The Lieutenant-Governor has no objection to see a few Vernacular Schools established by Government to serve as models to the indigenous Schools. He thinks that about half a dozen of these should be established in each District on the scale to be explained hereafter; but he would avoid the error of establishing them at the Sudder Stations, or even necessarily at the Stations of Sub-Divisions. These places have been sometimes selected under the idea that supervision could there be most readily exercised. This is true; but the tendency of the Native servants of Government, whose sons mostly frequent Schools at such places, is to wish for English Education, and Vernacular Schools so situated might not attract the class of Scholars for whose benefit the present scheme is intended. The places selected for the Model Schools to be established by Government should be, not Bazars, but thickly populated rural Villages, inhabited partly by Artizans, but mainly by Agriculturists of rather the better class. The things taught in the Government Institutions should be absolutely identical with those taught in the indigenous Institution. The house will be better built, and the Teachers better educated and better paid, and Books and writing materials will from the first take the place of Dictation and scribbling on sand. Of course such Schools cannot be established at the cost of 50 Rupees a year, which sum, by the plan now under discussion, it is proposed shall be the limit of expense for all purposes in each purely Village School. The Government would have to build the School-house and to keep it in repair, and the salary of the Head Teacher, who might be available for the occasional inspection and examination of other Schools, could not be fixed at less than 20 Rupees a month: this sum to be paid exclusive of the fees which should be demanded from the Scholars at the mouthly rate of one anna or two annas a head. Books must be supplied at a very trifling cost as to the other Schools previously in existence.

12. The arrangements being approved for the supervision of the indigenous, and for the establishment of Government Schools to serve as models, there remains for consideration the staff by which the Schools are to be selected, supervised, and, in some degree, controlled. For this it would be necessary to have a staff of Deputy Inspectors. But as repeated visits and constant supervision by such Inspectors do not form a part of the present proposal, it would be possible, the Lieutenant-Governor thinks, to have the work performed by a moderate number of such Officers. Taking the scale of indigenous Schools to be visited, at 100 per Zillah at first, and each School to require visits not much more than once a quarter, there would be 400 visits to be performed annually. To do justice to this number not less than four Deputy Inspectors would be required, who would each have twenty-five Schools to look after in his own Circle. The Deputy Inspectors might reside near the Model Schools, and bestow a close attention to their improvement at such times as they were not going the round of the Villages. Institutions wholly supported by Government obviously demand, and can endure, a more strict superintendence than independent Institutions provided over by Gurus self-elected, or chosen and paid by the Talookdars and Ryots; and one main object of the plan which the Lieutenant-Governor is now proposing is, that the retention of the indigenous Schools on the Government List should depend not on minute control, but on the results shewn at each Examination.

13. The expense of this scheme would be as follows:—The Lieutenant-Governor will take the number of 100 Schools, with six Model Schools, and their necessary staff, as one suitable for an

experiment, and capable of being enlarged by doubling, or trebling, or quadrupling the scale of the whole expenditure; thus 100 indigenous Schools in each District, costing Rupees 50 a year in all, would amount to Rupees 5,000 a year. The Model Schools could not be supported at a less cost than Rupees 30 a month, including the salary of the Head Teacher fixed at Rupees 20, or Rupees 360 a year. The salaries of the Deputy Inspectors must be liberal to secure the salaries of men of independence, honesty, and energy; and the Lieutenant-Governor does not think that qualified persons could be secured for less than 100 Rupees a month, including travelling allowances. Thus the whole expense for one District would be as follows;—

	Month.	*Year.*
100 Indigenous Schools ...	0	5,000
Six Model Schools, each at Rs. 30 a month ...	180	2,160
Four Sub-Inspectors, at Rs. 100 a month each ...	400	4,800
		11,960
Total in round numbers, Rupees		12,000

14. It is by no means the intention of the Lieutenant-Governor to recommend that the support of the State should be limited to one hundred Schools in a District, with half a dozen Model Schools, and a corresponding staff of Inspecting Officers. The above is taken as a fair proportion to start with on a reasonable scale of expenditure worthy of being tested, and should the plan succeed it will be a mere question of money whether the numbers, as before stated, should not be doubled, trebled, quadrupled, or still more largely multiplied. If the time should ever arrive when we could shew* one thousand Village Schools to a District aided by Government, and affording the Agriculturists a simple and practical Education, commensurate with their wants, the State, in such a case, might be held to have fairly done its duty by a neglected portion of its subjects.

* Note.—The number of Villages in a large District is about 5,000; this would give one School to every five Villages.

15. The above plan has already been tried in some of the Districts of Bengal to a very limited extent, and it is now under trial in Assam.

16. Another plan of dealing with indigenous Schools has been tried by Mr. Woodrow, the Inspector for East Bengal. Its basis of operations is partly the same as that of the plan above recommended. The Village Schools, with their primitive instruction, are taken as they are found. The difference is in the treatment of the Schools and of the Masters.

17. Mr. Woodrow selects three Village Schools within a Circle of two or three miles of each other. To these three Schools one Pundit is attached by Government, who receives a salary of 15 Rupees a month, and who visits each of the three Schools once a week, spending two days at each School. It is the business of the Pundit to prevail on the Village Guru to adopt an improved course of instruction, and to shew him practically the details of this course. For this end money is freely spent in rewards to such Gurus as consent to enter on a new system, and these rewards are of course exclusive of the salaries of the Pundits. It often happens that of the three Schools one assumes a marked superiority over the other two, and when this result takes place, and the inhabitants exhibit an anxiety for a permanent Teacher to supplant the Guru, the Pundit is then appointed to be their Teacher on a salary not of 15 but of 10 Rupees, the difference being made up to him by the fees of the Scholars, and the School thus becomes in every respect a Vernacular School wholly maintained by Government. This experiment, as tried by Mr. Woodrow, already embraces in round numbers 200 Schools in an aggregate of three or four Districts. The cost of each of the three Schools, to which the Pundit's salary is chargeable, has been *hitherto* 6 Rupees, *i. e.*, 5 Rupees salary and one Rupee for rewards, and the cost of any one School, when fairly converted into a Government School, could not be taken at less than 15 Rupees, *i. e.*, 10 Rupees salary and 5 Rupees incidental expenses.

18. The expense of this plan when fully developed seems to the Lieutenant-Governor to be excessive, for the cost of each School when perfect would be Rupees 180 a year. A District of ordinary size contains about 5,000 Villages, and one School to five Villages is a fair allowance. The ultimate expense then in such a District would be Rupees 1,80,000 a year, besides the cost of Model Schools and Inspectors. By the plan recommended the amount for the Village Schools *only* would not exceed Rupees 50,000.

19. It is not the intention of the Lieutenant-Governor to recommend Normal Schools for Teachers as part of this scheme, because he thinks that no Normal School other than a Provincial one for each District would ever supply, to the fullest extent, requisite Teachers for the lower class of Schools. It would be unreasonable to expect any Teacher brought up in a Normal School at Calcutta or Hooghly to proceed to teach Scholars in the Province of Cuttack, or the Division of Dacca, on such a moderate salary as must be assigned to Teachers of Schools in those localities. The Teachers for each District must be furnished in and by the District, and in this view the Lieutenant-Governor thinks it unnecessary to make a District Normal School for Teachers in Village Schools a part of his scheme. For the purely Vernacular Schools contemplated by this project we ought to look to the Model Vernacular Schools proposed to be established. If the support extended to the Native Village Schools should result in success, that success will immediately raise the character of the Schools and of the indigenous Teachers, and will call forth fresh Teachers as a natural consequence, and thus we shall attain our object.

20. The experiment may be tried at any time in some of the populous Districts of Lower Bengal when the money is available. The Lieutenant-Governor thinks that it would be wise to commence not with the most civilized parts of the 24-Pergunnahs, Barasat, or Hooghly, where the cry of the inhabitants is for an English Education as tending to employ and preferment, or, at any rate, not with the portions of those Districts in the vicinity of Calcutta, but rather with more distant Zillahs almost equal in population but not so constantly brought into contact with the advantages of civilization.

21. Considering the new schemes of taxation now being everywhere introduced, the Lieutenant-Governor is opposed to any attempt to impose any

special cess for any Educational purpose. By the present scheme the people pay for the chief cost of Vernacular Schools. The aid to be given by Government may fairly come from the General Revenues.

22. The main features of the scheme now recommended seem to have the merits of simplicity, cheapness, and facility for indefinite extension. Several of them are recommended by the united judgment of experienced Gentlemen of different professions, European and Native. There are difficulties in all plans; but, whatever difficulties there are in this plan, it is believed that they are not more than can be surmounted by the known tact, ability, and earnestness of those to whose hands its execution would be entrusted.

From W. Grey, Esq., Secretary to the Government of India, Home Department, to E. H. Lushington, Esq., Secretary to the Government of Bengal, dated the 21st September 1861.

With reference to the Resolution of the Governor-General in Council, dated the 11th July 1859, by which information was called for on the points connected with Education noticed in the Despatch of the Right Hon'ble the Secretary of State, No. 4 of 1859, and to the several Reports received in reply thereto, I am directed by the Governor-General in Council to request that His Honor the Lieutenant-Governor will cause the Education Budget for Bengal for the year 1862-63 to be prepared upon the basis of the arrangements proposed in the Report submitted by the Government of Bengal for the extension of Educational measures in the Lower Provinces.

2. It is not probable, indeed, that it will be in the power of the Government of India to assign the whole of the amount which may be thus asked for; but when all the Budgets have been received, and the Financial Department shall be in a position to determine what aggregate sum can be allotted to Education in 1862-63, the amount so allotted will then be apportioned among the several Governments and Administrations as may appear to the Governor-General in Council advisable on a careful review of the several Budgets.

3. On some general questions, and questions of principle which are raised by some of the Reports above referred to, the views of the Governor-General in Council will intermediately be communicated, and the ultimate appropriation of the funds allotted to each Local Government or Administration will, of course, be made in accordance with such views; but beyond that the Government of India will be desirous to leave the local assignment of the amount allotted for Education to each Government and Administration entirely in the hands of each Government and Administration.

From J. Moxon, Esq., Officiating Under-Secretary to the Government of Bengal, to the Director of Public Instruction, dated the 1st October 1861.

I am directed to forward to you the accompanying copy of a letter from the Secretary to the Government of India in the Home Department, No. 1763, dated the 21st ultimo, together with transcript of one (No. 633) which was addressed to that Officer, under date the 19th of October last, on the subject of popular Education in Bengal, and to request that, as enjoined by His Excellency in Council, you will be so good as to prepare your Budget for the year 1862-63 upon the basis of the arrangements proposed in the last mentioned communication.

From W. S. Atkinson, Esq., Director of Public Instruction, to J. D. Gordon, Esq., Junior Secretary to the Government of Bengal,—(dated the 22nd May 1862.)

In the Budget of this Department for 1862-63, a sum of Rupees 30,000 has been set aside for the purpose of initiating the scheme recommended by the late Lieutenant-Governor* for the extension of Vernacular Education in Bengal, and I have now to solicit the orders of Government as to the particular mode in which the funds so appropriated shall be employed. In doing this I must be permitted to offer briefly, for His Honor's consideration, some general explanations and suggestions regarding the working of the proposed measure

* No. 633, dated 19th October 1860.

2. Early in last year Mr. Woodrow having informed me that he had in hand a considerable balance belonging to the Reward Fund sanctioned for the old Division of South Bengal, I authorized him to employ this money in making a trial of the projected plan, as far as circumstances would permit, in one or more of the Districts of his Division. He accordingly selected Zillah Burdwan as a part of the country that appeared well suited for the experiment, and he has now submitted a Report, which will be found annexed, detailing the arrangements adopted by him in introducing the new system.

3. His Honor will observe that an important, indeed the *most* important, feature of these arrangements formed no part of the original scheme. It consists in the transfer of a certain number of the Gurus of the Village Schools under improvement, with stipends of Rupees 5 per mensem, to a Normal School, where they are to remain for a year, and receive instruction in their proper duties as Teachers, while Normal School pupils are sent to act as their substitutes in the Village Schools, with salaries of Rupees 12 per mensem—the cost of the arrangement being thus Rupees 17 per mensem for each School.

4. This measure I consider a valuable addition to the proposed scheme, for it supplies at the outset, and in a practical manner, an obvious and acknowledged want for which that scheme makes no provision. It must of course be admitted that no one can impart to others what he does not know himself, and this leads to the irresistible conclusion that any attempt to improve existing indigenous Schools which do not include a provision of some sort for giving instruction to the Gurus must, of necessity, result in failure.

5. The plan which has been tried experimentally by Mr. Woodrow for fulfilling this indispensable condition seems to be alike popular with the Gurus and the Villagers, while it promises to be more effective than any other in supplying to the former the sort of knowledge and skill which they especially need. I propose, therefore, to adopt it generally, as far as circumstances will permit; and, in order to render it still more attractive to the Gurus, I would make them this further offer that, at the end of their year of training, they shall each receive, on examination and approval by the Inspector, a Certificate, carrying with it a stipend of one Rupee per mensem—the Certificate

to continue in force for two years, and to be renewable, from time to time, for the like period of two years so long as the Guru continues in the regular discharge of his duties to the satisfaction of the Inspector.

6. With this addition I am disposed to think that the plan will be very generally successful in most of the Districts of Bengal, and if so, one step at least will have been gained towards the solution of a most serious practical difficulty.

7. The expenditure occasioned by this arrangement will be, for the first year, Rupees 204 for each School, being at the rate of Rupees 17 per mensem. At the end of the year this charge will cease, and the Guru, returning to his School, will simply receive, quarterly or half-yearly, payments in the nature of rewards, which will be proportional in their amount to the attainments of the scholars, as estimated by the Inspector in his periodial examinations.

8. It will be seen that Mr. Woodrow has laid down a graduated scale for determining the amount of the rewards to be given to the Gurus. This scale I am prepared to adopt provisionally. Experience alone can decide how far it will suit existing circumstances. The expenditure for rewards, as determined by this scale, will naturally be small at first; but, as the Schools improve, it will increase from year to year till it reaches some nearly stationary limit not yet assignable, but probably on the average not exceeding the Rupees 30 per School at which it has been estimated. Should it be found that the scale now fixed entails too heavy a charge, it may of course be altered.

9. The allowance proposed for each School being fixed at Rupees 50 per annum, there remains for disposal a sum of Rupees 20 per annum after the stipulated rewards, as now estimated, have been paid to the Gurus. This will perhaps be barely sufficient to defray the cost of a proper proportion of prizes for the children, as well as to provide the stipend of Rupees 12 per annum, which the Guru will draw in right of his Certificate. If additional expenditure is required, it will however be but small, and should not on any case exceed Rupees 10 per annum.

10. The Plan sketched out by the late Lieutenant-Governor contemplates the establishment of six "Model Schools," each costing Rupees 30 per mensem, for every District that furnishes 100 Schools for improvement. These "Model Schools" would, no doubt, be good things in themselves, but I am disposed to doubt their usefulness as "Models." In some Districts where good elementary Schools are scarce, or altogether wanting, it may perhaps be desirable to establish two or three of this class referred to; but generally I am of opinion that it will be a more practically useful plan to substitute, for the six Model Schools, a single Training Institution, consisting of a Model School with a *Normal Class* attached, in which the present and future Gurus of the District may be instructed in their duties under the arrangements indicated above.

11. In a Normal or Training School of this kind, with its connected Model School, great care must be taken to fix the course of study, with special reference to the elementary nature of the work it is required to do. A high standard would be fatal. Still, however, everything should be as perfect in its degree as it is possible to make it. Such an Institution may, I believe, be maintained in complete efficiency for Rupees 180 per mensem, the sum set aside for the support of the six Model Schools for which I propose to substitute it.

12. It will not, however, be necessary to establish one Normal School of this kind for every hundred of the primary Village Schools to which our operations may extend, so that funds will still be available for the support of a few of the Model Schools in Districts where it is thought they may be useful.

13. As regards the machinery for supervising the Schools now to be brought within the scope of our operations, I would ask authority to appoint Deputy Inspectors from time to time as occasion requires in about the proposed proportion, *viz.*, one Deputy Inspector to twenty-five Schools. They should receive salaries of Rupees 75 per mensem, and be permitted to draw travelling allowances on the same terms as the Deputy Inspectors of the higher grades. These allowances would probably not exceed Rupees 25 per mensem, except in very straggling Districts, so that the total charge for each of these Officers may be estimated at Rupees 100 per mensem, which is the amount set down under this head in the scheme of Sir J. P. Grant.

14. I now revert to the more particular question relating to the disposal of the Rupees 30,000 which have been set aside for carrying out the new School during the current year.

This sum I propose to divide into three portions of Rupees 10,000 each, to be appropriated as follows:—

Rupees 10,000 to the Inspector of Schools, South-West Division, for carrying on and extending the operations commenced by Mr. Woodrow in Zillah Burdwan;

Rupees 10,000 to the Inspector of Schools, Central Division, to commence operations in Zillah Nuddea; and

Rupees 10,000 to the Inspector of Schools, South-East Division, to be employed for the like purpose in Zillah Dacca.

15. These particular Districts in the Central and South-East Divisions have been provisionally fixed upon as being within easy reach of existing Normal Schools, but it will be best to give the Inspectors a discretionary power to select other Districts should they consider it desirable to do so.

16. It is not expedient, nor indeed possible, to lay down at present precise Rules for the specific allotment of the money assigned to each Inspector, but speaking generally the expenditure will be as follows:—

1 Deputy Inspector ...	Rs.	1,200
Gurus transferred to Normal School, say 35, at Rupees 17 each per mensem, Rupees 595 per mensem ...	,,	7,140
Rewards and Contingencies, say	,,	1,660
Rupees ...		10,000

Each of the three Inspectors, however, should be permitted, if he thinks it desirable, to establish one Model Primary School at a cost not exceeding Rupees 30 per mensem, or Rupees 360 per annum, the requisite funds being obtained by reducing the number of Gurus to be transferred to the Normal Schools.

17. These arrangements will absorb the Rupees 30,000 assigned in the Budget of the current year for bringing into operation the scheme of the late Lieutenant-Governor; but, in order to make proper provision for the extension of the measures now recommended, I beg to solicit that a further grant be sanctioned for the immediate establishment of three Normal Training Schools of the class already described, at a cost, for each, of Rupees 180 per mensem, or Rupees 2,160 per annum. This will involve an expenditure of Rupees 6,480 per annum when the three Institutions are in complete working order, but probably not more than two-thirds of this sum, or say Rupees 4,500, will be required during the present year.

18. It is my intention to recommend, in a separate communication, the establishment of Normal Schools of a superior class at Patna and Cuttack.

From H. Woodrow, Esq., Inspector of Schools, Central Division, to the Director of Public Instruction, dated the 30th April 1862.

I HAVE the honor, in accordance with your directions, to submit, for your information, a brief account of the trial of the scheme proposed by the late Lieutenant-Governor of Bengal for the improvement of Vernacular Schools that has, during the past year, been carried on in the Burdwan District, and to a slight extent in Hooghly and Midnapore.

2. The principle of Sir J. P. Grant's plan is that we must not disregard the kind of instruction which the people have hitherto sought and approved, but, on the contrary, must recognize its utility and try to improve the indigenous Schools where it has been given.

3. The mode of proceeding I adopted in carrying out this scheme was to select some District in which the Schools were most susceptible of improvement, but where the desire for English was not so strong as in the neighbourhood of Calcutta.

I accordingly selected the Burdwan District as the most eligible place, at the present time, for carrying out the scheme, and directed the Deputy Inspector, Baboo Kalidas Moitri, to select thirty Schools for the experiment. At his earnest request I raised the number to thirty-nine.

4. In the directions I sent him for guidance my aim was to give a few plain Rules which the Gurus could easily comprehend.

The following were some of the most important directions.

5. The *inducement* to Gurus to introduce printed books and improved plans of writing will be rewards in solid cash for work done, since Rupees will plead more forcibly than words, of no religious or inveterate prejudices are offended.

6. The *rate* of reward will in no case exceed half what the Guru receives from his pupils. As these receipts are calculated to be about Rupees 5 a month, the total sum allowable in a year for one School will be Rupees 30.

7. The *studies* will be Reading, Writing, and Arithmetic, and when some progress has been made Mensuration, Zemindaree and Mahajanee Accounts, Forms of Agreement, Bonds, Quittances for rent, and Models of letters which inferiors address to superiors. The books selected for this purpose is the second edition of the Patra Koumadi. (The School Book Society undertook to bring out this book in an improved form, but I regret to say that it has not yet been passed through the Press.)

8. The veriest elements of Bengali Grammar, Geography, and History will be sufficient, and even this should not be taken in hand till satisfactory progress is made in the other subjects.

9. The *Returns* will only be made once a year, and will be prepared by the Deputy Inspector from the Attendance Register kept by the Gurus. This is the only Register which the Gurus will be required to keep.

10. The *scale of rewards* to the Gurus will be *nothing* for boys who cannot read, spell, and write at dictation words of three letters, and say the Multiplication Table up to ten times ten.

One pice monthly for every boy who can read and explain the meaning of words and sentences in the 3rd No. of the Infant Teacher, or in some similar book, and who can do Sums in simple Addition, Subtraction, and Multiplication.

One anna monthly for every boy who can read and explain the 4th No. of the Infant Teacher, who can work easy Sums in Mental Arithmetic, and can do, on his slate or on plantain leaves, simple Sums in Compound Addition, Subtraction, and Multiplication.

Two annas monthly for every boy who can read and write without gross blunders, who can work Sums in the Rule of Three, who can copy a Map neatly, who knows the proper Forms of address, and who has made some progress in the knowledge of Zemindaree and Mahajanie Accounts.

Four annas monthly for every boy who completes the highest course prescribed for indigenous Schools.

11. *The time for rewards* will be half-yearly or quarterly, as may be found most convenient, and the amount will generally be determined by the number and progress of boys whom the Inspector examines.

12. The above directions were, I conceived, in strict accordance with the scheme of His Honor the late Lieutenant-Governor. I felt, however, that it was still necessary to set before the Gurus some standard to which they might strive to rise. The order to improve themselves and their Schools would be imperative with men who did not know how to set about the work, and could not conceive which a good School was like.

The Marquis of Hastings, in reference to a scheme for Vernacular education somewhat similar to that now under discussion, observed that the Village School Masters could not teach that in which they had themselves never been instructed. I have accordingly selected eleven Gurus, and prevailed on them to study a year at the Normal School, with stipends of Rupees 5 a month each, and placed Normal School Students to officiate for them on salaries of Rupees 12 a month each, together with such fees as they may be able to raise.

This plan is popular, and I could have indefinitely increased the number had there been funds to do so.

13. The expenditure has thus been Rupees 17 a month for each School thus improved, or Rupees 187 in all; but when the year is up the Guru will return and will be paid according to results, and the educating substitute will go to some other School. The Villagers, seeing what is the proper way of managing a School, will

keep the Guru up to his work, while the Guru himself, from his stay in the Normal School, will have some idea how to fulfil his duties properly.

14. The amount given in Burdwan to the Gurus of the Schools under improvement has been but small.

15. In Midnapore a scale of one pice for every page read by boys able to spell words of four letters has been adopted. There are, as left by Dr. Roer, nineteen Schools under improvement, and the sum paid has, in some cases, exceeded the limit of Rupees 30 a month to each School. It is as well to be liberal at first in order to shew Gurus what may be gained by labor.

16. Besides these payments Books and Maps have been circulated among the Schools, and Prize Books given to the best boys in all the Zillahs.

17. I am of opinion that, to carry out the scheme of Vernacular education successfully, some instruction for the Gurus is absolutely necessary, and I am happy to find that this opinion is supported by the authority of Dr. Marshman in his "Hints for Native Schools." A short epitome of these Hints is given in Marshman's "Life and Times of Carey, Marshman, and Ward," Vol. II., page 119.

Without some plan for teaching the Gurus, whether by their temporary transfer to a Normal School or by the "Circle System," I am afraid that much time and much money will be spent before any decided improvement is made in indigenous Schools.

18. The subjoined account of the expenditure between the 16th March 1861, when I became Inspector, and the 30th April 1862, is forwarded for your information.

From the Hon'ble A. Eden, Officiating Secretary to the Government of Bengal, to the Director of Public Instruction, dated the 12th July 1862.

I am directed to acknowledge the receipt of your letter No. 1341, dated the 22nd May last, with enclosure, soliciting the orders of Government as to the particular mode in which the sum of Rupees (30,000) thirty thousand, set aside in the Educational Budget for 1862-63 for the purpose of initiating the scheme for the extension of Vernacular Education in Bengal, recommended by the late Lieutenant-Governor, is to be employed, and suggesting certain modifications and extensions of the original scheme.

2. You now propose, instead of the six Model District Schools which formed part of the original scheme, to establish, in each of the Districts of Nuddea, Burdwan, and Dacca, one Model School, with a Normal Training School attached, for the instruction of the Gurus of indigenous Schools. It is intended that a certain number of the Village Gurus of the District shall be withdrawn from their Schools and placed at this Institution, with stipends of Rupees 5 per mensem, to learn their duty as Teachers, their places being temporarily filled by Normal School pupils on a salary of Rupees 12 per mensem. At the end of the year of training each Guru will, on returning to his School, receive, on examination and approval by the Inspector, a Certificate carrying with it a stipend of one Rupee per mensem to continue in force for two years, and to be renewable periodically on proof of continued efficiency. In addition to this fixed stipend of Rupees 12 per annum these Village Teachers will, as originally intended, be entitled to rewards which you propose to fix provisionally on the scale recommended by Mr. Woodrow. The total cost of each indigenous School will, under this system, be for the first year Rupees 204 per annum; but after the return of the Guru from the Training School the expenditure will be so far reduced as to bring the whole expenses of each School, including stipends, rewards, and children's prizes, within the fixed limit of Rupees 30 per annum. This plan has, you report, already been tried with great success by Mr. Woodrow, though on a smaller scale.

3. In reply I am desired to inform you that the Lieutenant-Governor agrees with you in thinking that one Training School, such as it is now proposed to establish, is more likely to be useful as a means of improving the indigenous Schools by imparting to the Gurus a knowledge of their business as Teachers, than a larger number of Model Schools, which may or may not be visited by those for whose benefit they are intended as an example. For this reason the Lieutenant-Governor is averse to the establishment of any Model School of this kind, as suggested in paragraph 16 of your letter under reply, especially if it is to limit the number of Gurus who can receive instruction in the Normal Schools.

4. With this exception the Lieutenant-Governor entirely approves of the modified scheme proposed by you, and authorizes its immediate introduction into the Districts of Burdwan, Dacca, and Nuddea.

5. The experiment is one which must be carefully tended and watched by the Inspectors, and fully reported on at the end of the year.

6. The expense of the entire scheme for the current year, the Lieutenant-Governor thinks, will probably be entirely met from the assignment of Rupees (30,000) thirty thousand in the Budget, and if there should be any excess expenditure owing to the establishment of Normal Training Schools, it will not be more than can be defrayed from savings in other directions.

7. In conclusion, I am to observe that no system of popular education can be complete or effective unless provision be made for supplying the people with cheap Books. On this subject I am directed to refer you to the orders quoted in the margin, copies of which were forwarded to you with the letters of this Office Nos. 92 and 287, dated, respectively, the 21st February and 17th June 1859, and to request that you will report what means have been, and are being, taken to attain this important object, and what further measures you would suggest for the purpose.

FORT WILLIAM, THE 19TH JULY 1862.

THE following Act of the Governor-General of India in Council received the assent of His Excellency the Governor-General on the 19th July 1862, and is hereby promulgated for general information:—

ACT No. XX. OF 1862.

An Act to provide for the levy of Fees and Stamp Duties in the High Court of Judicature at Fort William in Bengal; and to suspend the operation of certain Sections of Act VIII of 1859 in the said High Court.

Preamble.

WHEREAS the High Court of Judicature at Fort William in Bengal, constituted by Her Majesty's Letters Patent, dated the 14th day of May 1862, was established by the publication of the said Letters Patent subsequently to the date of the passing of Act X of 1862 (*to consolidate and amend the law relating to Stamp Duties*), and it is doubtful whether the proceedings in the said High Court are excepted from the Stamp Duties imposed by Section XXX of the said Act X of 1862 according to the Schedule B thereunto annexed; and whereas it is expedient as a temporary arrangement to provide that Court Fees, and not Stamp Duties, shall be paid in respect of proceedings in, and business coming before, the said High Court in the exercise of its ordinary original jurisdiction, and on appeal from its ordinary original Civil jurisdiction, according to the practice which prevailed in the late Supreme Court of Judicature at Fort William in Bengal, and that Stamp Duties shall be levied on all instruments and writings specified as requiring Stamps in the Schedule B annexed to the said Act X of 1862, which shall be filed, exhibited, or recorded in, or which shall be received or furnished by the said High Court in the exercise of its appellate jurisdiction, not being on appeal from its ordinary original Civil jurisdiction, or in the exercise of its jurisdiction as a Court of Reference and Revision in Criminal cases, in the same manner as such Stamp Duties were levied in the late Court of Sudder Dewanny and Nizamut Adawlut for the Lower Provinces of the Presidency of Fort William in Bengal; and whereas, by an arrangement made between the Government and the said Supreme Court certain Officers of that Court were remunerated for their services by fixed salaries instead of by fees, and the fees received by such Officers were paid to the account of Government, and formed into a general fund out of which the salaries of such Officers were defrayed, and it is desirable to continue this arrangement in respect to such of the said Officers attached to the said Supreme Court who, as a temporary measure, have been appointed Officers of the said High Court, and in respect to any Officers who may hereafter be appointed to the said High Court; and whereas

it is expedient to suspend the operation in the said High Court of certain Sections of Act VIII of 1859 *(the Code of Civil Procedure)* relating to the manner in which the Judgments and orders of the Courts of Civil Judicature are to be recorded; It is enacted as follows:—

Court empowered to prepare Tables of Court Fees in respect of business coming before it in the exercise of its ordinary original jurisdiction and on appeal from its ordinary original Civil jurisdiction.

I. It shall be lawful for the said High Court of Judicature to prepare and settle Tables of Fees to be received as Court Fees and to be paid to such Officer or Officers as the said High Court shall direct in respect of proceedings in or business coming before such High Court in the exercise of its ordinary original jurisdiction, and on appeal from its ordinary original Civil jurisdiction, and no Stamp Duties shall be chargeable in respect of such proceedings or other business under Section XXX of the said Act X of 1862. The said High Court may from time to time add to or reduce or alter or amend the Tables of Fees so prepared as it may deem necessary and proper. Provided that such Tables shall not be inconsistent with the provisions of any law for the time being in force, and provided also that, before such Tables or such amended Tables are issued, they shall have received the sanction of the Governor-General in Council. The Tables of Fees so prepared and any amended Tables shall, as soon as they have received the sanction of the Governor General in Council, be published in the *Calcutta Gazette*, and from and after such publication no other fees than those sanctioned as aforesaid shall be taken by any Officer of the said High Court in respect of any Duty to which such Tables of Fees may relate.

On what sides of the High Court Stamp Duties to be levied.

II. No instrument or writing of any of the kinds specified as requiring Stamps in the Schedule B annexed to the said Act X of 1862, shall be filed, exhibited, or recorded in, or shall be received or furnished by the said High Court of Judicature in any case coming before such Court in the exercise of its appellate jurisdiction under Section 15 of the said Letters Patent, or in the exercise of its extraordinary original jurisdiction under Sections 13 and 23 of the said Letters Patent, or as a Court of Appeal, Reference, or Revision under Sections 26 and 27 of the said Letters Patent, unless such instrument or writing be upon a Stamp of a value not less than that indicated by the Schedule B annexed to the said Act X of 1862, as the proper stamp for similar instruments and writings in the said Sudder Court, anything in Section XXX of the said Act to the contrary notwithstanding, but subject to the proviso therein contained.

Fees to be duly accounted for.

III. The fees received by the Officers of the said High Court under Section I of this Act, shall be paid to the account of Government, and the Officer or Officers of the said High Court, whose duty it shall be, under the orders of the said High Court, to receive the same, shall respectively cause all fees received by him or them to be duly and regularly entered in one or more book or books to be kept for that purpose in their Offices, distinguishing the fees under their several heads, and shall pay over the fees so received by them at such time and in such manner as the said High Court with the approval of the Governor-General in Council shall direct; and such Officers shall quarterly, within one month after the 31st day of March, the 30th day of June, the 30th day of September, and the 31st day of December in every year, render a true and faithful account in writing to an Officer to be appointed by the Governor-General in Council of all such fees, in such form of account, and with such particulars of receipt or otherwise, and accompanied by such vouchers as the Governor-General in Council shall from time to time think proper to direct or require.

Act not to apply to fees allowable to the Sheriff, Attorneys, or Clerks or Officers of the Court, &c.

IV. Nothing in this Act shall be held to apply to the fees to be allowed to the Sheriff, Attorneys, or any Clerk or Officer of the said High Court who shall be paid by fees instead of by a fixed salary, or to the fees, if any, which such Sheriff, Attorneys, or any Clerk or Officer shall be allowed to receive in addition to any fixed salary.

Parts of Act VIII of 1859 suspended.

V. The operation of the following Sections of the said Act VIII of 1859, namely, Sections 184, 185, 186, and 359, relating to the manner in which the judgments of the Courts of Civil Judicature are to be recorded, and so much of the said Act as extends the provisions of the foregoing Sections to the orders of the Courts of Civil Judicature not being judgments or decrees, is hereby suspended in the said High Court; and the said High Court and every Division Court and Judge thereof shall record their judgments and the orders passed by them respectively in such manner as the said High Court shall by any general rule or rules from time to time direct.

High Court to record its judgments and orders as it shall by rule direct.

Court may fix time for preferring appeal from judgments, &c., of its own Judges or Division Courts.

VI. The High Court may by its own rules fix the time within which appeals from judgments, orders, or decrees made by any Division Court or by any Judge or Judges of the said High Court in the exercise of its original jurisdiction shall be preferred.

Judgment may be signed in High Court on any Warrant of Attorney or Cognovit on which judgment might have been signed in the Supreme Court.

VII. Judgment may be signed in the said High Court upon every Warrant of Attorney and Cognovit Actionem upon which a Judgment might have been signed in the said late Supreme Court if such Court had not been abolished, and every such judgment may be signed, entolled, and enforced in and by the said High Court in the same manner, and in the same manner only, as it might have been in the said Supreme Court.

Execution may issue in certain cases before the amount due for costs has been ascertained, and execution for costs may issue subsequently when their amount is ascertained.

VIII. Whenever it shall appear necessary to a Judge of the said High Court that a decree made in the exercise of the ordinary original Civil jurisdiction of the said Court ought to be enforced before the amount of the costs incurred in the suit can be ascertained by taxation, the Judge may order that the decree shall be executed forthwith, except as to so much thereof as relates to the costs; and as to so much thereof as relates to the costs that the same may be executed as soon as the amount thereof shall be ascertained by taxation.

IX. Wherever any thing is directed by the said Act VIII of 1859 to be done by or through a Pleader, the said High Court or any Judge thereof in the exercise of the ordinary original Civil jurisdiction of the said Court may authorize such act to be done by or through an Attorney at Law of the Court. Provided that no Attorney shall be authorized under the provisions of this Section to plead in the said Court or in any Division Court for any person.

Court in the exercise of its ordinary original Civil jurisdiction may, in certain cases, authorize acts required by the Code of Civil Procedure to be done by a Pleader, to be done by an Attorney.

Proviso.

X. This Act shall apply *mutatis mutandis* to the High Courts of Judicature which may be established at Madras and Bombay under Act 24 and 25 Victoria, Chapter 104, for those Presidencies respectively, whenever such Courts shall be established. Provided that the powers vested by this Act in the Governor-General in Council shall be exercised in the Presidencies of Madras and Bombay by the Governors in Council of those Presidencies respectively.

Application of Act to the High Courts at Madras and Bombay.

Act to have effect from 1st July 1862.

XII. This Act shall continue in force until the 1st day of January 1863.

No. 1302A.

Nynee Tal, the 5th June 1862.

With reference to the Notification of this Government, in the Public Works Department, Railway Branch, No. 160, dated the 28th May, published at page 871 of the *Allahabad Gazette* of the 3rd June, the provisions of which are to remain in full force, directing, under the Orders of the Supreme Government, that all Commissioners, Collectors, Magistrates, Executive Engineers, Treasury and other Officers of the Civil Department, with the exception of the Post Office Authorities, are no longer to receive credit from or keep open accounts with the Traffic Manager of the East India Railway Company, but are to prepay in cash the amount of all Railway charges incurred by them in the public service. The following Resolution, recorded by His Excellency the Governor-General in Council, is published for general information:—

From Officiating Civil Pay Master, Punjab, No. 806, dated 24th April last.

From Civil Pay Master, North-Western Provinces, No. 15-11, dated 10th ultimo.

RESOLUTION.—From the abovementioned papers it appears that the rule respecting travelling allowance to Subordinates and Menials in Government Offices, who travel by Rail on the public service, varies in the different Presidencies and Provinces.

It is desirable that the practice should be uniform, and His Excellency the Governor-General in Council therefore prescribes, as a general rule, that when Subordinate Officers leaving their Head Quarters on duty are required to travel their *bonâ fide* Railway fares shall be paid (except in the North-Western Provinces, where free passes are granted) at the public expense; Menials and Ministerial Officers who draw less than Rupees 50 a month being furnished with Third Class accommodation and permitted to draw, in addition, any daily travelling batta to which they may be entitled under the rules; and Ministerial Officers who receive Rupees 50 a month or upwards being provided with Second Class accommodation, but disallowed batta, except when the batta allowed to them under the rules exceeds the Railway fare, in which case they may draw the difference only in addition to the Railway fare.

By Order of the Hon'ble the Lieutenant-Governor of the North-Western Provinces,

GEORGE COUPER,
Secy. to Govt., N. W. P.

Abstract of the Proceedings of the Governor-General of India, assembled for the purpose of making Laws and Regulations under the provisions of the Act of Parliament 24 and 25 Vict. C. 67.

THE Council met at Government House on Saturday, the 19th July 1862.

PRESENT:

His Excellency the Viceroy and Governor-General of India, *Presiding*.
Major-General the Hon'ble Sir R. Napier, K. C. B.
The Hon'ble H. B. Harington.

The Hon'ble C. J. Erskine.

The Hon'ble D. Cowie.

HIGH COURT.

The Hon'ble MR. HARINGTON moved for leave to bring in a Bill to provide for the levy of Fees and Stamp Duties in the High Court of Judicature at Fort William in Bengal, and to suspend the operation of certain Sections of Act VIII of 1859 in the said High Court. He said that the principal object of the Bill, as Hon'ble Members would have observed from the copies of the Bill in their hands, was—firstly, to make temporary provision for the levy of Court Fees in the business coming before that part of the High Court of Judicature, recently established at Calcutta under Her Majesty's Letters Patent, which represented the late Supreme Court of Judicature at Fort William in Bengal, thus continuing for a time the practice in respect to the payment of Fees which obtained in that Court; and, secondly, for taking Judicial Stamps in accordance with Section XXX of Act X. of the current year in that part of the High Court which represented the late Court of Sudder Dewanny and Nizamut Adawlut for the Lower Provinces of Bengal.

The Act of Parliament passed last year, under which the Letters Patent constituting a High Court of Judicature at Calcutta were issued, contained a provision for the settlement of Fees to be allowed to the Sheriff, Attorneys, and all Clerks and Officers of the High Court; but it was open to question whether, under this provision, Fees could be levied, which, although paid to Officers of the Court, were not to be allowed to the Officers receiving them, but were intended to be carried to the credit of Government. By an arrangement made between the Government and the late Supreme Court, certain Officers of that Court, who were previously paid by Fees, were remunerated for their services by fixed salaries instead of by Fees, and the Fees received by them were accounted for to Government and formed into a General Fund out of which the salaries of the Officers were paid. It was considered desirable to continue this arrangement for a time at least, not only as respects certain of the Officers attached to the late Supreme Court who had been appointed to the High Court, pending a revision of the entire ministerial establishment of the Court, but also in regard to other Officers who might be appointed to the High Court while the present Bill remained in force.

In the late Sudder Court for the Lower Provinces of Bengal, Stamp Duties were chargeable under Section XXX. of Act X. of 1862 on all Instruments and writings of the kinds specified as requiring Stamps in Schedule B. annexed to the Act, but Courts established by Royal Charter, which it was unnecessary for him to say was the character of the High Court, as representing both the late Supreme and the late

Sudder Court, were excepted by express words from the operation of the Section, and some provision of law was therefore required to enable the High Court to continue, as a temporary arrangement, to levy Stamp Duties in cases coming before it in which they would have been leviable had they come before the late Sudder Court. Whether it would be right to maintain the distinction contained in this Bill, according to which Court Fees would be taken in some portion of the business coming before the High Court, and Stamp Duties would be charged on other business coming before the Court, or whether a uniform system in the form either of Court Fees or of Stamp Duties should not be introduced throughout the Court, were questions deserving of consideration. The Government would consult the Hon'ble and learned Judges of the High Court on the subject, and on receiving the opinion of the Court they would propose such legislation as might appear proper. One of the reasons for giving a temporary character to the present Bill, which it was proposed should remain in force for a period of only six months, was that these questions might be fully considered before any permanent measure was proposed for adoption. Another reason was, that it was not thought proper to pass any permanent law introducing great and important changes in the practice of the High Court without a previous publication, for the usual period, of the Bill proposing such alterations, and without giving every Hon'ble Member of the Council full time to consider the same. These remarks applied also to the remaining provisions of the Bill as printed.

The first of these provisions proposed to suspend the operation in the High Court of certain Sections of the Code of Civil Procedure, which prescribed, by a series of Rules, the manner in which the judgments and orders of the Courts of Civil Judicature were to be recorded. There could be no doubt that the observance of these Rules imposed considerable labor on the Judges, and were attended with an expenditure of time, which, looking to the very heavy arrears of business pending before the High Court, the Judges of that Court could ill afford to give to the task. The Sections in question were well adapted to, and were very suitable for, the Mofussil Courts. But they were not equally well adapted to the High Court, and there could not be the same necessity for their strict observance in that Court. The Royal Commissioners, who were the original framers of the Code of Civil Procedure, exempted the judgments of the High Court from the operation of these Sections, and the Legislature of this country, which passed the Code into law, never intended that it should apply in its entireness to the High Courts. Indeed he might say that it was always contemplated in this country that a separate Code of Civil Procedure would be prepared for the High Courts whenever they should be established. What was now proposed was that, pending further legislation, the Judges of the High Court should record their judgments and orders in such manner as that Court should, by rules to be framed by them, direct.

The next provision of the Bill related to the appeals which were to be allowed from decisions passed by the High Court, in the exercise of its ordinary original Civil jurisdiction. The only appeals allowed from the decisions of the late Supreme Court were to Her Majesty in Council. But as the High Court was constituted, decisions passed by a bench consisting of one or more Judges of the Court not being a majority of the full number of Judges, in the exercise of the ordinary original Civil jurisdiction of the Court, would lie to another bench of the Court. Under the Code ninety days would be allowed for preferring such appeals, which was obviously too long a time. In fixing ninety days as the period within which appeals should be preferred to the Sudder Courts, the framers of the Code were obliged to have regard not only to the parts of the country within the jurisdiction of the Sudder Courts in the neighbourhood of the place where the sittings of the Courts where held, but also to the more remote parts, and for such parts the time allowed was not too long. But the appeals coming within the Section of the Bill to which he was now referring would be made in cases arising within the immediate vicinity of the High Court, and as these appeals would be very much in the nature of applications for a new trial, it did not seem necessary that a very long time should be allowed for preferring them. It was proposed to allow the High Court to fix the time by Rule. The rule so framed might probably, with advantage, be embodied in any Bill hereafter introduced to amend the Code of Civil Procedure. Meanwhile, it would be right that the rule adopted by the Court should be published in the *Gazette* for general information.

The next Section was intended for the High Courts which might be established within the next six months at Madras and Bombay. Then followed a Section giving retrospective effect to the Act which seemed necessary in respect to any Fees or Stamp Duties levied since the establishment of the Court on the 1st of the present month.

The concluding Section provided that the Act should remain in force until the 1st January 1863. This would give time for the consideration of any further legislation relating to the High Court, not only on the points mentioned in the Bill, but also on other points in respect of which some legislation might intermediately be shown to be necessary.

Mr. Harington went on to say that, since the Bill was printed and circulated, he had been asked to introduce three more Sections. The first related to what were called Warrants of Attorney to confess judgment and cognovits. He was informed there were many such instruments in existence upon which judgments had not yet been signed. They gave power to confess judgment or to allow judgment to go by default only in the late Supreme Court, and a question might arise, and indeed he believed had already arisen, whether this power extended to that part of the High Court which represented the late Supreme Court. The Section was intended to remove all doubt upon the point, and to prevent what would be a fraudulent defence in order to escape from what was taken as a security for money lent, being set up.

The next new Section had reference to the costs of suits decided by the High Court in the exercise of its ordinary original Civil jurisdiction after judgment had been given. By a Section in the Code of Civil Procedure the amount of costs with other particulars was required to be entered

in the decree, and the decree could not be signed by the Court, much less executed, until the costs had been entered in it. But the costs of suits in the late Supreme Court were always taxed by an Officer appointed for the purpose. This often occupied some time, and if the decree could not be enforced until the costs had been taxed, it would give judgment-debtors an opportunity of making away with their property, of which they would not be slow to avail themselves. The Section gave power to the Judges of the High Court on the application of judgment-creditors to enforce decrees passed by the Court in the exercise of its original jurisdiction, with the exception of so much of the decree as related to the costs of suit, although the amount of the costs should not have been ascertained by taxation or entered in the decree.

The remaining new Section related to the legal Practitioners of the High Court. They were of three classes, the Advocates, Pleaders or Vakeels, and the Attorneys-at-Law who might also be Vakeels. By the Code of Civil Procedure many Acts would require to be done by Advocates or Barristers, which in the late Supreme Court were performed by the Attorneys. This would add greatly to the expenses of litigation, and the object of the Section was to allow Attorneys to do all such Acts in the High Court as they had been in the habit of doing in the late Supreme Court. They would continue to appear and act, but would not be allowed to plead.

The motion was put and agreed to.

The Hon'ble Mr. HARINGTON then applied to His Excellency the President to suspend the rules for the conduct of business, which related to the introduction and passing of a Bill, with a view to enable him to move that the Bill, with the amendments referred to, be passed.

His Excellency the PRESIDENT declared the rules in question to be suspended.

The Hon'ble Mr. HARINGTON then introduced the Bill, and moved by way of amendment that the three following new Sections be inserted after Section VI.:—

"(1.) Judgment may be signed in the said High Court upon every Warrant of Attorney and *cognovit actionem* upon which a judgment might have been signed in the said late Supreme Court if such Court had not been abolished, and every such judgment may be signed, enrolled, and enforced in and by the said High Court in the same manner, and in the same manner only, as it might have been in the said Supreme Court.

"(2.) Whenever it shall appear necessary to a Judge of the said High Court that a decree made in the exercise of the ordinary original Civil jurisdiction of the said Court ought to be enforced before the amount of the costs incurred in the suit can be ascertained by taxation, the Judge may order that the decree shall be executed forthwith, except as to so much thereof as relates to the costs; and as to so much thereof as relates to the costs, that the same may be executed as soon as the amount thereof shall be ascertained by taxation.

"(3). Whenever any thing is directed by the said Act VIII. of 1859, to be done by or through a Pleader, the said High Court or any Judge thereof in the exercise of the ordinary original Civil jurisdiction of the said Court may authorize such act to be done by or through an Attorney-at-law of the Court. Provided that no Attorney shall be authorized under the provisions of this Section to plead in the said Court or in any Division Court for any person."

The Motion was put and agreed to.

The Hon'ble Mr. HARINGTON then moved that the Bill, as amended, be passed.

The Motion was put and agreed to.

The Council adjourned.

CALCUTTA,
The 19th July 1862.

Government of Bengal.

On the subject of contracting the Government manufacture of Salt.

From W. J. HERSCHEL, Esq., Officiating Junior Secretary to the Board of Revenue, to the Officiating Secretary to the Government of Bengal.—(dated the 17th June 1862.)

WITH reference to paragraph 9 of Government Order dated the 7th April last, I have the honor, by direction of the Board of Revenue, to submit herewith a copy of a Minute, dated the 30th idem, from the late Senior Member, Mr. Stainforth, and of one dated the 14th instant from the present Senior Member, Mr. Grote.

2. Mr. Grote, it will be seen, proposes, for the reasons set forth in his Note, to fix a Talabad of nine lacs of maunds of Punghu Salt for the ensuing season 1862-63 as per margin, and to close the Chittagong Agency altogether. He would not have any Kurkutch gathered in Pooree. Mr. Grote would also reduce the prime cost from 10 annas to 8 annas a maund everywhere.

NOTE BY H. STAINFORTH, ESQ.

IN paragraph 9 of letter No. 208(A.), dated the 7th instant, the Lieutenant-Governor asks when we are likely to have a store of Government Salt equal to one year's consumption.

2. Our Annual Report shows that we had about sixty-nine lacs of Government Salt in store at the end of September last. The Talabad of the present season is forty-four lacs of maunds; and assuming that we manufacture thirty-five lacs, and that two lacs of Madras Kurkutch will be brought up to Chittagong, we may estimate our stock at the end of next September at 101 lacs, less by the amount sold during the current year.

Unsold balance of Salt on 30th September 1861.

Total	66,87,577	38	7

3. The sales of full-taxed Government Salt by the Board, the Agent at Chittagong, and by the Superintendent of Bullooah, during the current Salt year, have been as follows:—

Taulad for 1861-62

	Maunds.
Chittagong ...	6,00,000

Total ...	5,06,286

4. And these sales, with ten lacs of maunds added for retail sales, do not indicate any probability that the sales in the present will exceed those made in the last Salt year, or twenty-five lacs of maunds.

5. We may safely say then that we now have, and shall have at the end of the present Salt year, more Government Salt than is sufficient for a year's consumption of that article.

6. But another very important question is whether we are not under absolute necessity of closing some of the Agencies.

7. The quantity of Salt consumed in Bengal, Behar, and Orissa, of all sorts of Salt in a single year, is about seventy lacs of maunds.

8. To meet this we had of Government Salt in store at the different Depôts nearly fifty-seven lacs of maunds on the 31st of March last, and there was upwards of twenty-eight lacs of imported Salt, that is to say, we have in hand upwards of eighty-five lacs of Salt, exclusive of thirty-five lacs, the estimated amount to be manufactured of the current season, and thirteen and a half lacs which has been shipped in England and has not arrived, making a grand total of 133½ lacs

Imported Salt ...	28,60,505 0 0
Total .	85,31,089 18 12

9. These figures seem to dictate to us the necessity of closing at all events some of our Agencies, and it appears to me that at Chittagong, where the Salt is made at a high price, where we always have balances to write off, and from the Aurungs of which much smuggling is believed to be carried on, should be closed from the end of the current season.

10. I would also close the Hidgellee Agency, the Salt of which when brought to Sulkea (whither to be saleable at all it must be brought) is more costly than the Tumlook Salt. It is an additional reason for closing this Agency in preference to that of Tumlook, that much smuggling is supposed to take place from its Aurungs.

11. If any Agency out of Orissa is to be kept open, I would maintain that of Tumlook, the Salt of which is, as noticed, cheaper than that of Hidgellee. Further, the manufacture, which is along the sea coast, not extending more than four miles inwards, is more easily supervised by the Preventive Officers than the manufacture at Hidgellee.

12. In Orissa we must, for the present, manufacture enough for local consumption, no arrangement being made for importing Salt into the Province. I would contract greatly the manufacture in it.

13. In my opinion the total abolition of the manufacture on the part of Government will be most beneficial to it, smuggling from Ships being much more preventible than it is from the Aurungs. The Government will save, too, in Preventive Establishments, if it trusts to importation for the supply of Salt to the people; and land now used for the purposes of the manufacture will yield rent to it. No injury will ensue to the Molunghees from the abolition of the Agencies. There is abundant demand for their labor in consequence of the increase of the prices of production, and that demand will be increased if the Salt lands are given up to cultivation. There seems to me no shadow of danger in leaving the supply of the country to importers, especially when we have the Sambur Lake, other lakes in Central India, the Salt range of Hills in the Punjab, as well as the Ganjam and Chilka Lake sources, with which no maritime enemy can interfere.

14. I may add to this that our Agency at Hidgellee, especially, is a public nuisance. To manufacture Salt we must provide fuel, and this necessitates the maintenance of jungle generating malaria. If the Agency be closed, this evil will be removed by the cultivation of the Julpye lands.

15. There would, moreover, be a saving in Embankments in this Agency, where they are extended and tortuous, in order to allow Salt water to flow over the Salt lands.

H. Stainforth.

The 30th April 1862.

Note by A. Grote, Esq.

Tuilads for 1269 (1862-63).

The stock of Government Salt on the 1st ultimo was fifty-seven lacs of maunds, stored as per margin. The sales during the twelve months which terminated on the 30th April last were for maunds 16,26,424, giving an average monthly demand of maunds 1,35,535.

2. The Presidency sales in May have been maunds 97,115.

3. The outturn of the manufacture of 1268, which has now been closed, is reported and estimated to be maunds 27,96,765, and is being stored as per margin.

4. The prices for this year have just been notified, and are for Pungah at Sulkea* 3 Rupees per 100 maunds higher than those of last year, and at the Agency Ghauts 4 Rupees lower

* Note.—The Deputy Auditor has made a serious mistake in pricing this Salt, which has just been corrected. In fact, the Sulkea Salt is 15 Rupees higher per 100 maunds than it was last year.

5. The Foreign Salt in the river or in bond on the same date was maunds 31,34,442, being Liverpool twenty-three and three quarter lacs, Bombay and Scinde, &c., seven and a half lacs.

The clearances during the year had been maunds 45,92,704, and the May sales were maunds 5,87,956. There are above 50,099* tons known to have been shipped from Liverpool up to March 17th. The market rates, which had been falling from Rupees 395 per 100 maunds on 25th April down to Rupees 379 on the 20th May, have now recovered themselves, and the daily clearances may be expected to maintain throughout the year the proportion which they bore to the Presidency sales of Government Salt in May.

* Maunds 13,63,808.

6. For there is a probability that importations will continue so long as freights remain low, and at the same time an improbability of the rates here ranging high enough to bring the Government Salt at Sulkea as now priced into serious competition with imported Salt.

7. Nothing, however, can be more uncertain than the prospects of the Foreign Salt market, as may be gathered from Mr. Bullen's communication to our Secretary, dated the

Copy of Mr. Eden's Note has been sent, I understand, to His Honor the Lieutenant-Governor.

Every year this Salt is entering more largely into the consumption of the country. Last year two-thirds of the seventy lacs, which we are in the habit of reckoning that consumption to be, was supplied by importation. Assuming, as I have above, that the clearances in the course of the current year will be equal to what they were last year, say forty-six lacs, there is already in port and afloat close on forty-five lacs.

8. Whether Government Salt is only temporarily out of the market by reason of its price, or whether imported Salt is beginning to be generally preferred as a superior article, I do not here enquire. Government have only to see that precautions are taken to provide against any abrupt cessation of the supply of Salt to the public, and it has been agreed that it is a sufficient precaution against such a contingency to keep up a stock equal to a year's supply, which shall be always available at cost price.

9. I have shewn above that we have on hand a year's supply of our own manufacture and importation, and more fifty-seven and a half lacs, plus twenty-eight, equal to eighty-five and a half lacs. If the demand on our Golahs should not, during the current year, exceed that of last year, say seventeen lacs, we shall, with our present stocks, be able to meet it, and after supplying all requirements still have sixty-nine lacs, or nearly a year's consumption in reserve.

10. Of the above fifty-seven and a half lacs, however, thirty-two lacs are Kurkutch stored as follows:—

Chittagong	... Maunds	3,43,643
Sulkeah	... „	14,03,986
Orissa, say	... „	15,50,000
Total	Maunds	31,97,629

11. The manufacture of this kind of Salt, for this year at Poorce up to date, is only 51,089 maunds. The Sulkeah stock goes off very slowly, and is not likely to be purchased except on failure of the stocks of Punjab. The local markets will carry off the stocks in Chittagong and Orissa, the supply in the latter Province being equal to three years' consumption.

12. I propose, therefore, to contract materially our manufacture in the ensuing season, and to close entirely the Chittagong Agency. We have already directed the Agent there to arrange for throwing up the land rented by Government for the Nizampore Aurungs, and we have assented to the Hidgellee Agent's proposal to abandon the Bhogrie Aurungs on the Soobunrekha. What I propose now to do is to concentrate the manufacture of the latter Agency on the Russoolpore River, and that of the Tumlook Agency on the Huldee River. The Salt manufactured on these Aurungs hitherto has not been so good, I understand, as the Salt of the Aurungs further south but though the lands on these river banks are sweeter naturally than those of Beercool and West Mujnah, there are advantages in working them, and a more careful supervision will probably improve the produce. The Russoolpore Golahs have inland communication with Tumlook, which, next to Sulkeah, is our principal and most accessible Store Depôt.

13. I should confine the manufacture on these two Rivers to say four lacs, closing all Khalaries north of the Contai and Tumlook Road, and all outlying Khalaries, so as to admit of an effective Preventive Cordon being drawn round the field of manufacture. Smuggling has prevailed, and has been most successfully carried on from the Nurcahmootah and other Aurungs to the north of this road. The opportunity will be a good one for giving effect to the experimental preventive measures recommended by the late Civil Finance Commission.

14. I am inclined to reduce the price again from ten to eight annas for such Salt as may be manufactured in both these Agencies upon advances; but I would endeavor to induce Contractors to come forward and undertake to deliver Salt at our Golahs on certain rates to be agreed on, which should include all transport charges. It is doubtful, I think, whether the change of system will be popular in either Agency, but it will be interesting as an experiment.

15. For so limited a manufacture as I have here proposed in the two Agencies, it will not of course be necessary to retain two Covenanted Agents. One will certainly suffice for the superintendence of the Aurungs on both the above rivers, as well as for the Store Golahs of Russoolpore and Kalinugger in Hidgellee, and Narainpore in Tumlook. The other Hidgellee Golahs will probably be cleared in the course of next year at the price just fixed for Agency Ghaut purchases. After completing the storage for this year they will contain as follows:—

Pooreeghatta	... Maunds	1,15,917
Rammuggur	„	1,66,947
Kishennuggur	... „	2,18,243

16. Whatever is not likely to be cleared by next February should be brought up to Sulkeah.

17. I prefer working both Agencies partially to closing one of them altogether, for I think it quite possible that next year may shew a very altered state of the Salt market, to meet which it may be necessary to re-equip both Agencies. I do not think that it would be safe yet to look on the present contraction of the manufacture as a step towards its abandonment altogether; but it seems to me that, by watching the Foreign Salt trade, we ought, with our actual stocks, always to be independent of Chittagong, Tumlook, Hidgellee, and Orissa, should, if our arrangements

are timely, supply all our requirements of Pungah Salt. The cheapness of Kurkutch Salt (not however that of the Government importations now for sale at Sulkeah which I find to be much over-priced) may eventually bring it into greater favor, and should this be the case, we may increase our stocks of this Salt by importation, should private enterprize not render our intervention unnecessary

18. For there is, I find, a noticeable increase in the trade in Kurkutch Salt. Though the sales of our stocks of Chilka and Madras at Sulkeah have been small, totalling only 81,950 maunds, the following Memorandum will shew that there have been increased importations on private account, and larger clearances during the past year over its predecessor :—

19. This improvement seems to indicate a growing taste for this kind of Salt, which can apparently be imported from the Malabar and Coromandel Coasts, and sold at a considerably lower rate than any other Salt. I will quote the rates of private Salt at Hautkholah as they stand to-day. The highest rate of Kurkutch here quoted is below our advertized prices for Sulkeah Salt of the same kind.

20 I lay stress on the tendencies to improve the Kurkutch market, because of this kind of Salt supplies will always be readily available in the event of any threatened interruption of our communications with Europe. The above shews an annual consumption of above fifteen lacs of Kurkutch of private importation, to which has to be added 81,950 maunds of Government Kurkutch sold at Sulkeah, and 5,05,472 maunds also of Government manufacture, or importation sold by retail in Chittagong, Bullooah, and Poorce. The total consumption of Kurkutch, therefore, in the year was close on twenty-one lacs.

21. I am still without the necessary particulars from Cuttack, and must therefore submit my recommendations without figures for the three Orissa Agencies. I propose to make no Kurkutch Salt next year; the Pooree manufacturers were prepared by the Commissioner at the beginning of the present season for this abandonment. I propose to confine the manufacture of Pungah to five lacs in the three Districts, but cannot assign a Taidad to each District till I have heard the Commissioner's views on the best way of contracting it. I believe it will be found convenient to close the Dhamrah Aurungs of Balasore I believe, too, that it will be found quite feasible to reduce the rate again from 10 annas to 8 annas. In our letter to the Commissioner we have requested him to concentrate the manufacture as much as possible, with a view to the same preventive precautions that have suggested our propositions for Hidgellee and Tumlook.

22. Our Secretary, I see, has proposed to give a comparatively larger Taidad to Balasore, because the produce of that Agency is a favorite Salt in the market. Were it an object with Government to sell its Salt, this might be an argument for favoring Balasore; but though Government should and must manufacture for sale when the market is unstocked, it should manufacture only for its reserve stock when the market is otherwise well stocked. It was under the impression that Government should take measures calculated to relieve its Depôts that my colleagues lately proposed to Government to abandon its recent policy of equalizing the prices of all its Pungah Salt at Sulkeah and the Agency Ghauts.

23. With the nine lacs which I have proposed to manufacture, equal to about a third of what we have manufactured this year, we shall, if we estimate the sales for the current year at seventeen lacs, have a reserve stock on the 30th April 1863 of seventy-eight lacs. It will then be for consideration to what further extent we may contract our manufacture. The effect, probably, of the contraction here recommended, and of the improved preventive efficiency which should follow, will be to increase materially the consumption of taxed Salt in the manufacturing Districts.

24. It is probable that we shall have to build more Golahs at Narainpore There will be room, eventually, for ten lacs more of Salt at Sulkeah, but not until the Golahs now stored with Bonded Salt shall have been cleared.

25. I do not think that we ought ever to require again to work the Bhogtie Aurungs of Hidgellee, and would suggest that the lands there

occupied by the Department be given over for cultivation to the Land Revenue Authorities. I would not recommend that any other lands, either in this or the Tumlook Agency, be finally given up, unless in the case of isolated patches, which at present interfere with a direct and economical alignment of the sea embankments which are to be raised in the coming year. The attention of the Public Works Department might be drawn to the opportunity now offered of improving upon the existing alignment.

26. The Secretary has, I see, suggested that the graduating system of Salt manufacture in use in Europe be experimentally tried in one of the Agencies next year. On this point I will note hereafter.

27. Great opposition must of course be expected to the contraction of the manufacture within the limits here proposed. Mr. Buckle has already reported the Hidgellee Molunghees as refusing to believe that Government can even be contemplating a serious reduction of its manufacture. On such objections as these, however, in Hidgellee and Tumlook, I lay no stress. I am not so well acquainted with the condition of the people in Cuttack and Chittagong.

A. GROTE.

The 14th June 1862.

From the HON'BLE A. EDEN, Officiating Secretary to the Government of Bengal, to the Officiating Junior Secretary to the Board of Revenue,—(dated Fort William, the 30th June 1862.)

I AM directed to acknowledge the receipt of your letter No. 676, dated the 17th instant, forwarding the Minutes of Messrs. Stainforth and Grote on the subject of contracting the manufacture of Salt on account of Government, and closing certain Agencies, either wholly or in part.

2. In reply, I am desired to observe that the stock of Government Salt in store on the 1st May was 57½ lakhs of maunds, and, including the outturn of the season [28 lakhs and two lakhs of Madras Kurkutch Salt for Chittagong, the quantity of Government Salt to be offered for sale during the year will be 87 lakhs, which, with private importations 31,34,442, would make the entire quantity available maunds 1,18,34,442, equal to nearly two years' consumption.

3. The importations, judging from the shipments from Liverpool, are likely to be in excess even of last year. This importation will not improbably continue until the cessation of the American War. On the cessation of that War there will certainly be for a time, at all events, a falling off in importations, arising partly from a demand for Salt for the supply of the Southern States, and partly from the rise in freight, which will follow the re-opening of trade with the Southern Ports. But the Lieutenant-Governor agrees with the Board in thinking that the retention of a stock of Government Salt equal to one year's supply is a sufficient precaution against the contingency of a sudden interruption to the trade in imported Salt. It is clearly shewn in Mr. Grote's Minute that importers are no longer dependent on Liverpool for their supply, in as much as no less than 21,17,959 maunds of Salt have been brought from other than British Ports during the past year.

4. Under these circumstances, the Lieutenant-Governor concurs with the Board in thinking that it is necessary at once to adopt measures for contracting the Government manufacture during the next season, and he generally agrees with the Board as to the best means of doing this.

5. The Chittagong Agency should be at once closed, the services of Mr. Swinton will be made available for other employment, he should make overcharge of the Agency to Mr. Bruce, the Assistant, who may draw an extra allowance of Rupees 200 per mensem, in consideration of the increased responsibility which thus devolves upon him. Mr. Bruce will conduct the duties of the Salt Agent in immediate subordination to the Commissioner.

6. Mr. Grote's proposal to make two lakhs of maunds of Salt in Hidgellee and Tumlook, respectively, is approved. Mr. Houghton may, for the present, remain in charge of Hidgellee; but as soon as Mr. Buckle can be provided with another appointment, Mr. Cunliffe will be appointed to the united Agency on his present salary.

7. The Lieutenant-Governor sanctions the Taidad of five lakhs of maunds of Pungah Salt for the Orissa Agencies, but no Kurkutch should be made, as the stock at Pooree is very large. As regards the question raised in Mr. Grote's 22nd paragraph, the Lieutenant-Governor is disposed to think that the Taidad of Balasore should be comparatively larger than that of other Agencies. The Balasore Salt is very superior, and there are no difficulties connected with its transport. It is unquestionably cheaper to make good Salt than bad, when the cost of the manufacture is the same, and even when Government manufactures only for a reserve stock, still it is obviously bound to manufacture the best and cheapest Salt it can. The ulterior object of keeping a reserved stock is that it may be available for sale in the event of a deficiency in supply from other sources, and, therefore, good and saleable Salt should be kept in store in preference to inferior Salt.

8. With reference to the reduction of price to the Molunghees, proposed in Mr. Grote's 14th paragraph, the Lieutenant-Governor thinks that two annas is too large a reduction to make at once, and he therefore sanctions the reduction of price to nine annas per maund. If contracts can be made on advantageous terms with parties willing to come forward to make Salt without advances, it would be preferable to the existing system, but it is very doubtful whether it will be found possible to introduce the change proposed in Mr. Grote's 14th paragraph.

9. All Salt remaining unsold in the Hidgellee and Tumlook Agencies in December next should be brought up to Sulkeah if possible; if this cannot be done, increased accommodation will have to be provided at Narainpore.

10. In regard to the Government imported Salt now for sale at Sulkeah, which Mr. Grote says has been over-priced, I am desired to request that the Board will explain to what extent, and under what circumstances, a miscalculation of the cost of the Salt in question has been made.

11. The Board will be good enough to state what accommodation is now allotted to Bonders of Salt at Sulkeah, and whether, with reference to the accommodation provided at Howrah and Ghoosery, some of the Bonders might not be served with notice to quit by the 1st of January next, in order to provide accommodation for the large stock of Government Salt.

12. The Salt lands in the Bhogrie Aurungs of the Hidgellee Agency may at once be made over to the Collector for settlement in the Land Revenue Department, and I am to request that the Board will call upon all the Salt Agents for a Report of the lands reserved for the Salt Department, which have now become useless for manufacturing purposes. The Lieutenant-Governor understands that in Hidgellee large tracts are laying waste, no longer fit for Salt manufacture, and yet kept out of cultivation. Every endeavor should be made to concentrate the manufacture as much as possible.

13. As suggested by Mr. Grote, the Department of Public Works will be consulted as to the possibility of improving the alignment of the Sea Embankments.

14. The Lieutenant-Governor will await the Board's further Report on the graduating system of Salt manufacture as in use in Europe, before sanctioning the experiment proposed by the Controller of Salt Chowkeys and Mr. Bruce.

15. Now that the supply of Salt to this country is left so much to private enterprise, it is absolutely necessary that those engaged in the trade should be furnished with accurate information of the stocks in the market. A Statement which purposes to give this information is, it is true, published bi-monthly in the *Government Gazette*, but in its present form it is calculated to mislead rather than to guide the Merchants. It apparently only comprises Salt advertized for sale at Sulkeah or the Agencies, but, in the opinion of the Lieutenant-Governor, it should give the total stock of Government Salt of all sorts unsold at all Depôts, including Chittagong and Orissa. To make it more complete the private Salt in bond and on boardship in Port might also be given separately.

An Act to provide for the levy of Fees and Stamp Duties in the High Court of Judicature at Fort William in Bengal ; and to suspend the operation of certain Sections of Act VIII of 1859 in the said High Court.

Preamble.

WHEREAS the High Court of Judicature at Fort William in Bengal, constituted by Her Majesty's Letters Patent, dated the 14th day of May 1862, was established by the publication of the said Letters Patent subsequently to the date of the passing of Act X of 1862 *(to consolidate and amend the law relating to Stamp Duties)*, and it is doubtful whether the proceedings in the said High Court are excepted from the Stamp Duties imposed by Section XXX of the said Act X of 1862 according to the Schedule B thereunto annexed; and whereas it is expedient as a temporary arrangement to provide that Court Fees, and not Stamp Duties, shall be paid in respect of proceedings in, and business coming before, the said High Court in the exercise of its ordinary original jurisdiction, and on appeal from its ordinary original Civil jurisdiction, according to the practice which prevailed in the late Supreme Court of Judicature at Fort William in Bengal, and that Stamp Duties shall be levied on all instruments and writings specified as requiring Stamps in the Schedule B annexed to the said Act X of 1862, which shall be filed, exhibited, or recorded in, or which shall be received or furnished by the said High Court in the exercise of its appellate jurisdiction, not being on appeal from its ordinary original Civil jurisdiction, or in the exercise of its jurisdiction as a Court of Reference and Revision in Criminal cases, in the same manner as such Stamp Duties were levied in the late Court of Sudder Dewanny and Nizamut Adawlut for the Lower Provinces of the Presidency of Fort William in Bengal ; and whereas, by an arrangement made between the Government and the said Supreme Court certain Officers of that Court were remunerated for their services by fixed salaries instead of by fees, and the fees received by such Officers were paid to the account of Government, and formed into a general fund out of which the salaries of such Officers were defrayed, and it is desirable to continue this arrangement in respect to such of the said Officers attached to the said Supreme Court who, as a temporary measure, have been appointed Officers of the said High Court, and in respect to any Officers who may hereafter be appointed to the said High Court; and whereas it is expedient to suspend the operation in the said High Court of certain Sections of Act VIII of 1859 *(the Code of Civil Procedure)* relating to the manner in which the Judgments and orders of the Courts of Civil Judicature are to be recorded ; It is enacted as follows :—

Court empowered to prepare Tables of Court Fees in respect of business coming before it in the exercise of its ordinary original jurisdiction and on appeal from its ordinary original Civil jurisdiction.

I. It shall be lawful for the said High Court of Judicature to prepare and settle Tables of Fees to be received as Court Fees and to be paid to such Officer or Officers as the said High Court shall direct in respect of proceedings in or business coming before such High Court in the exercise of its ordinary original jurisdiction, and on appeal from its ordinary original Civil jurisdiction, and no Stamp Duties shall be chargeable in respect of such proceedings or other business under Section XXX of the said Act X of 1862. The said High Court may from time to time add to or reduce or alter or amend the Tables of Fees so prepared as it may deem necessary and proper. Provided that such Tables shall not be inconsistent with the provisions of any law for the time being in force, and provided also

that, before such Tables or such amended Tables are issued, they shall have received the sanction of the Governor-General in Council. The Tables of Fees so prepared and any amended Tables shall, as soon as they have received the sanction of the Governor General in Council, be published in the *Calcutta Gazette*, and from and after such publication no other fees than those sanctioned as aforesaid shall be taken by any Officer of the said High Court in respect of any Duty to which such Tables of Fees may relate.

Fees to be duly accounted for.

III. The fees received by the Officers of the said High Court under Section 1 of this Act shall be paid to the account of Government, and the Officer or Officers of the said High Court, whose duty it shall be, under the orders of the said High Court, to receive the same, shall respectively cause all fees received by him or them to be duly and regularly entered in one or more book or books to be kept for that purpose in their Offices, distinguishing the fees under their several heads, and shall pay over the fees so received by them at such time and in such manner as the said High Court, with the approval of the Governor-General in Council, shall direct; and such Officers shall quarterly, within one month after the 31st day of March, the 30th day of June, the 30th day of September, and the 31st day of December in every year, render a true and faithful account in writing to an Officer to be appointed by the Governor-General in Council of all such fees, in such form of account, and with such particulars of receipt or otherwise, and accompanied by such vouchers as the Governor-General in Council shall from time to time think proper to direct or require.

Act not to apply to fees allowable to the Sheriff, Attorneys, or Clerks or Officers of the Court, &c.

IV. Nothing in this Act shall be held to apply to the fees to be allowed to the Sheriff, Attorneys, or any Clerk or Officer of the said High Court who shall be paid by fees instead of by a fixed salary, or to the fees, if any, which such Sheriff, Attorneys, or any Clerk or Officer shall be allowed to receive in addition to any fixed salary.

THE following Report of a Select Committee of the Council of the Governor-General for the purpose of making Laws and Regulations, together with the Bill as settled by them, is published for general information:—

HOME DEPARTMENT.

LEGISLATIVE.

WE, the undersigned, Members of the Select Committee of the Council of the Governor-General of India for the purpose of making Laws and Regulations, to whom the Bill for the consolidation and amendment of the laws relating to Customs Duties was referred, have the honor to report that we have carefully considered the Bill and the papers connected with it.

The alterations proposed by us are so numerous that they could not be shewn in parallel columns without re-printing nearly the whole of the Original Bill; nor could they now be noticed in detail without unduly extending this Report. We desire, however, to draw attention to some of the more important changes introduced into the Amended Bill now submitted.

Instead of repealing former Regulations and Acts in so far only as they affect certain acts or persons, we propose to repeal absolutely such provisions of Law as will be superseded by the present Bill. We have added considerably to the list of Regulations and Acts thus repealed; and acting on a suggestion offered by the Committee on the late Tariff Bill, we have taken this opportunity of repealing such portions as remain in force of Acts IX of 1857 and X of 1860.

As we propose to repeal Act X of 1850, it becomes necessary also to propose the insertion of a new Section (XI of the Amended Bill) giving the Supreme Government power by Proclamation to declare that any Port shall be a Free Port. If these proposals be adopted, a Proclamation relative to Aden should be issued, so as to come into force contemporaneously with this Act.

As we propose to repeal Section III of Act VI and the whole of Act VII of 1848, it becomes necessary to insert a new Section (XVII of the Amended Bill) declaring the interportal Trade of India free from Customs Duties. The provisions formerly inserted in this Bill applied merely to goods carried in coasting vessels. But goods may, of course, be carried coastwise, though not in coasting vessels; and, for these cases, it is right to provide. The absence of an express provision on this subject in the Original Bill seems to have given rise to some misapprehension.

Considerable alterations are proposed in Section XI of the Original Bill, corresponding with Section XX of the Amended Bill, especially the omission of the Clause relative to articles imported with counterfeit brands or marks, and of that relative to the importation of the separate parts of articles chargeable with Duty on value. After much consideration it seems to us better that these Clauses should be omitted; and we believe that their omission will be acceptable to the Mercantile Community.

We propose to insert a new Section (XXIII of the Amended Bill) requiring Exporters and Importers on passing goods through the Custom House to state to the best of their ability the real value of Duty free goods, and of goods liable to fixed Duties according to weight or quantity only. This question has recently been the subject of correspondence between the Supreme Government and the Government of Bengal; and the amendment now proposed will, no doubt, be a convenience to all parties.

We propose by Sections XXVI and XXVII of the Amended Bill to declare precisely when exportation and importation respectively are to be held to take place.

We recommend the omission of Section XXVIII of the Original Bill relative to cases of smuggling on board of Vessels of War. It does not appear to us that the risk of injury to the Revenue in this way is so serious as to require the insertion of a provision which might give rise to much inconvenience.

We propose the insertion of a new Section (XLVII of the Amended Bill) providing, as regards importation, for the allowance during fifteen days of the services of a Customs Officer free of cost, as provided in Section CX with respect to exportation.

Adverting to Section LII of the Original Bill, we do not think that liberty to bond need be confined to goods on which Duty to the extent of Rupees 100 is leviable; nor that licenses for private warehouses need be restricted to six months; and we consider that goods may, without renewals of bonds, be allowed to be bonded for three years.

We would omit the long table of allowances of ullage and wastage from Section LXX of the Original Bill, corresponding with Section LXXXVIII of the Bill as now amended (most of the articles in that table not being articles of Import into British India); and would confine the allowances for ullage and wastage to wines, spirits, and beer in wood.

With reference to Sections CIV and CXXVI of the Amended Bill, we are of opinion that the reserved Duty of one-eighth hitherto charged on the re-exportation of goods (whether from bond or after payment of Import Duty) should now be relinquished. We are given to understand that the sacrifice of revenue which this would entail will be trifling; while the convenience will be great.

We would insert a new Section (CVIII of the Amended Bill) applying to the Bengal Bonded Warehouse Association all provisions of this Bill relative to private warehouses. The then existing provisions of the law relating to private warehouses were made applicable to that Association by Section XXV of Act V of 1838. But those provisions are repealed by this Bill; and it is necessary, therefore, to give the Association the benefit of the new provisions which are here substituted for them.

Passing to Section CXXII of the Amended Bill, we propose, in supersession of the present more complicated arrangement, that goods passed after Port-clearance shall pay an extra Duty of 2 per cent. all round.

We have proposed an addition to Section CI of the Original Bill, corresponding with Section CXXVI of the Amended Bill, in order to meet the case of certain articles on which (even if they be not country articles) special Export Duties have, at least since 1860, been charged. For instance, a quantity of saltpetre was lately imported from the Persian Gulf into Bombay, and, after payment of Import Duty there, was re-exported to another Foreign Port. Doubt was felt as to the manner in which Export Duties should be levied in that case. So long as the present special Export Duties are charged on all articles exported, we consider that the procedure now recommended by us is less objectionable than any other. It will not apply to articles shipped from bond, in respect to which importation will not (under Section XXVI of the Amended Bill) have taken place.

By Section CXL of the Amended Bill, we propose to leave with the local Governments the power of regulating details relative to their own coasting vessels.

Section CLIX of the Amended Bill, we believe, will carry out the principle hitherto acted upon with regard to the exportation of spirits of Indian manufacture

In order that Section CLXXI of the Amended Bill may not interfere with the maintenance of a uniform Tariff for all India, we would provide that the fixing of values therein authorized shall be with the sanction of the Governor-General of India in Council

We propose the insertion, in lieu of Section CLXXV of the Original Bill, of a general Section (CCV of the Amended Bill) providing that penalties, &c., levied under this Act, shall be thrown into a general Fund, from which the Chief Customs Authority, under rules to be prescribed by the local Government, may grant rewards as occasion may require.

We recommend the omission of Section CLXXXI of the Original Bill, by which it was proposed that the amount of Customs or Excise Duty on Salt paid at any place in the Bombay Presidency shall be deducted in settling the Duty leviable on such Salt at any other Port in India.

On the subject of Section CCVIII of the Amended Bill, the Board of Revenue seem to have had some recent correspondence with Government The Board are not satisfied that the decision formerly passed is sound; and would endeavor wholly to prevent the consumption of untaxed spirits on board of ships in Port. We are not, however, prepared to adopt the views of the Board or to suggest any change in this respect.

In submitting this Report we beg to notice that all the more important amendments now proposed had the concurrence of our Honorable Colleague, Mr. Laing.

It shall be lawful to import into, or to export from, British India any goods, the importation or exportation of which is not prohibited or restricted by any law or public notice of the Governor-General of India in Council, for the time being in force; and any dutiable goods, the importation and warehousing of which is not prohibited or restricted by any such law or notice, may, under the rules for the warehousing of goods in force at the Port of importation, be warehoused without payment of Duty on the first entry thereof.

XXIII. On the importation into, or exportation from, any Port in British India of any goods not liable to Duty or liable to fixed Duties according to weight or quantity only, the owner, consignee, importer, exporter, or agent of such goods shall, in his bill of entry or clearance, truly declare their real value to the best of his knowledge and belief. In case of doubt, it shall be lawful for the Officer in charge of the Custom House to require any such person or any other person who shall be in possession of any invoice, broker's note, policy of insurance, or other document, whereby the value of any such goods can be ascertained, to produce the same, and to furnish any information relating to the value of such goods which it shall be in his power to furnish. And it shall thereupon be the duty of such person to produce any such document or to furnish any such information as shall be so required by such Officer.

Undervalued Goods how to be dealt with

XXIV. If, upon the examination of any goods entered for Duty, and chargeable with Duty upon the value thereof, but for which a specific value has not been fixed, it shall appear to the Officers of Customs that such goods are properly chargeable with a higher rate or amount of Duty than that to which they would be subject according to the value thereof as described in such entry, it shall be lawful for such Officers to detain such goods. In every such case the Officers shall forthwith give notice in writing to the person entering the goods of their detention and of the value thereof, as estimated by them; and the Officer in charge of the Custom House shall within two working days after such detention, or within such reasonable periods as may with the consent of the parties be arranged, determine either to deliver such goods on the entry of such persons, or to retain the same for the use of Government. If the goods be detained for the use of Government, the Officer in charge of the Custom House shall cause the full value at which such goods were entered to be paid to the person entering the same, in full satisfaction for such goods, in the same manner as if such goods had been transferred by ordinary sale, and shall then cause the goods to be sold by public auction after due notice in the Official Gazette. If the proceeds arising from such sale shall exceed the sum paid to the person entering the goods, together with the Duty to which the goods are liable, and all charges incurred by Government in connection with them, a portion not exceeding one-half of the overplus shall, at the discretion of the Chief Officer of Customs of the Port, be payable to the Officer who detected the undervaluation of the goods. Nothing in this Section shall prevent the Chief Officer of Customs of the Port when he shall have reason to believe that any such undervaluation was solely the result of accident, from permitting the person entering the goods, on his application for that purpose, to amend such entry, at such value, on payment of such increased rate of Duties or on such other terms as he may determine. When goods are so taken on account of Government, the Duties payable thereon shall in no case be levied from the person entering such goods.

XXV. If it be found when any goods are brought to be passed through a Custom House either for importation or exportation, that the packages in which they are contained differ widely from the description given in the application for passing them; or that the contents thereof have been wrongfully described in such entry as regards the denominations, characters, and circumstances according to which such goods are charged with Duty or may be imported and exported; or that the contents of such packages have been wilfully mis-stated in regard to sort, quality, or quantity; or that goods not stated in the entry have been fraudulently concealed in or mixed up with the articles specified therein; or have been packed to deceive the Officers of Customs—such packages, together with the whole of the goods contained therein, shall be liable to confiscation.

XXVI. If upon the first levying, repealing, enhancement, or reduction of any Duty or upon any change of any fixed valuation for Duty, or upon the first permitting, prohibiting, or restricting of any importation, it shall become necessary to determine the exact date on which an importation of goods had effect, such date shall be deemed to be that on which the goods were actually entered for home consumption at the Custom House.

LEGISLATIVE.

FORT WILLIAM, THE 19TH JULY 1862.

THE following Act of the Governor-General of India in Council received the assent of His Excellency the Governor-General on the 19th July 1862, and is hereby promulgated for general information:—

ACT No. XX. OF 1862.

An Act to provide for the levy of Fees and Stamp Duties in the High Court of Judicature at Fort William in Bengal; and to suspend the operation of certain Sections of Act VIII of 1859 in the said High Court.

Preamble.

WHEREAS the High Court of Judicature at Fort William in Bengal, constituted by Her Majesty's Letters Patent, dated the 14th day of May 1862, was established by the publication of the said Letters Patent subsequently to the date of the passing of Act X of 1862 (*to consolidate and amend the law relating to Stamp Duties*), and it is doubtful whether the proceedings in the said High Court are excepted from the Stamp Duties imposed by Section XXX of the said Act X of 1862 according to the Schedule B thereunto annexed; and whereas it is expedient as a temporary arrangement to provide that Court Fees, and not Stamp Duties, shall be paid in respect of proceedings in, and business coming before, the said High Court in the exercise of its ordinary original jurisdiction, and on appeal from its ordinary original Civil jurisdiction, according to the practice which prevailed in the late Supreme Court of Judicature at Fort William in Bengal, and that Stamp Duties shall be levied on all instruments and writings specified as requiring Stamps in the Schedule B annexed to the said Act X of 1862, which shall be filed, exhibited, or recorded in, or which shall be received or furnished by the said High Court in the exercise of its appellate jurisdiction, not being on appeal from its ordinary original Civil jurisdiction, or in the exercise of its jurisdiction as a Court of Reference and Revision in Criminal cases, in the same manner as such Stamp Duties were levied in the late Court of Sudder Dewanny and Nizamut Adawlut for the Lower Provinces of the Presidency of Fort William in Bengal; and whereas, by an arrangement made between the Government and the said Supreme Court certain Officers of that Court were remunerated for their services by fixed salaries instead of by fees, and the fees received by such Officers were paid to the account of Government, and formed into a general fund out of which the salaries of such Officers were defrayed, and it is desirable to continue this arrangement in respect to such of the said Officers attached to the said Supreme Court who, as a temporary measure, have been appointed Officers of the said High Court, and in respect to any Officers who may hereafter be appointed to the said High Court; and whereas it is expedient to suspend the operation in the said High Court of certain Sections of Act VIII of 1859 (*the Code of Civil Procedure*) relating to the manner in which the Judgments and orders of the Courts of Civil Judicature are to be recorded; It is enacted as follows:—

Court empowered to prepare Tables of Court Fees in respect of business coming before it in the exercise of its ordinary original jurisdiction, and on appeal from its ordinary original Civil jurisdiction.

I. It shall be lawful for the said High Court of Judicature to prepare and settle Tables of Fees to be received as Court Fees and to be paid to such Officer or Officers as the said High Court shall direct in respect of proceedings in or business coming before such High Court in the exercise of its ordinary original jurisdiction, and on appeal from its ordinary original Civil jurisdiction, and no Stamp Duties shall be chargeable in respect of such proceedings or other business under Section XXX of the said Act X of 1862. The said High Court may from time to time add to or reduce or alter or amend the Tables of Fees so prepared as it may deem necessary and proper. Provided that such Tables shall not be inconsistent with the provisions of any law for the time being in force, and provided also

that, before such Tables or such amended Tables are issued, they shall have received the sanction of the Governor-General in Council. The Tables of Fees so prepared and any amended Tables shall, as soon as they have received the sanction of the Governor General in Council, be published in the *Calcutta Gazette*, and from and after such publication no other fees than those sanctioned as aforesaid shall be taken by any Officer of the said High Court in respect of any Duty to which such Tables of Fees may relate.

On what sides of the High Court Stamp Duties to be levied.

II. No instrument or writing of any of the kinds specified as requiring Stamps in the Schedule B annexed to the said Act X of 1862, shall be filed, exhibited, or recorded in, or shall be received or furnished by the said High Court of Judicature in any case coming before such Court in the exercise of its appellate jurisdiction under Section 15 of the said Letters Patent, or in the exercise of its extraordinary original jurisdiction under Sections 13 and 23 of the said Letters Patent, or as a Court of Appeal, Reference, or Revision under Sections 26 and 27 of the said Letters Patent, unless such instrument or writing be upon a Stamp of a value not less than that indicated by the Schedule B annexed to the said Act X of 1862, as the proper stamp for similar instruments and writings in the said Sudder Court, anything in Section XXX of the said Act to the contrary notwithstanding, but subject to the proviso therein contained.

Fees to be duly accounted for.

III. The fees received by the Officers of the said High Court under Section I of this Act shall be paid to the account of Government, and the Officer or Officers of the said High Court, whose duty it shall be, under the orders of the said High Court, to receive the same, shall respectively cause all fees received by him or them to be duly and regularly entered in one or more book or books to be kept for that purpose in their Offices, distinguishing the fees under their several heads, and shall pay over the fees so received by them at such time and in such manner as the said High Court, with the approval of the Governor-General in Council, shall direct; and such Officers shall quarterly, within one month after the 31st day of March, the 30th day of June, the 30th day of September, and the 31st day of December in every year, render a true and faithful account in writing to an Officer to be appointed by the Governor-General in Council of all such fees, in such form of account, and with such particulars of receipt or otherwise, and accompanied by such vouchers as the Governor-General in Council shall from time to time think proper to direct or require.

Act not to apply to fees allowable to the Sheriff, Attorneys, or Clerks or Officers of the Court, &c.

IV. Nothing in this Act shall be held to apply to the fees to be allowed to the Sheriff, Attorneys, or any Clerk or Officer of the said High Court who shall be paid by fees instead of by a fixed salary, or to the fees, if any, which such Sheriff, Attorneys, or any Clerk or Officer shall be allowed to receive in addition to any fixed salary.

Parts of Act VIII of 1859 suspended.

V. The operation of the following Sections of the said Act VIII of 1859, namely, Sections 181, 185, 186, and 359, relating to the manner in which the judgments of the Courts of Civil Judicature are to be recorded, and so much of the said Act as extends the provisions of the foregoing Sections to the orders of the Courts of Civil Judicature not being judgments or decrees, is hereby suspended in the said High Court; and the said High Court and every Division Court and Judge thereof shall record their judgments and the orders passed by them respectively in such manner as the said High Court shall by any general rule or rules from time to time direct.

High Court to record its judgments and orders as it shall by rule direct.

Court may fix time for preferring appeal from judgments, &c., of its own Judges or Division Courts.

VI. The High Court may by its own rules fix the time within which appeals from judgments, orders, or decrees made by any Division Court or by any Judge or Judges of the said High Court in the exercise of its original jurisdiction shall be preferred.

Judgment may be signed in High Court on any Warrant of Attorney or Cognovit on which judgment might have been signed in the Supreme Court.

VII. Judgment may be signed in the said High Court upon every Warrant of Attorney and Cognovit Actionem upon which a Judgment might have been signed in the said late Supreme Court if such Court had not been abolished, and every such judgment may be signed, enrolled, and enforced in and by the said High Court in the same manner, and in the same manner only, as it might have been in the said Supreme Court.

Execution may issue in certain cases before the amount due for costs has been ascertained, and execution for costs may issue subsequently when their amount is ascertained.

VIII. Whenever it shall appear necessary to a Judge of the said High Court that a decree made in the exercise of the ordinary original Civil jurisdiction of the said Court ought to be enforced before the amount of the costs incurred in the suit can be ascertained by taxation, the Judge may order that the decree shall be executed forthwith, except as to so much thereof as relates to the costs; and as to so much thereof as relates to the costs that the same may be executed as soon as the amount thereof shall be ascertained by taxation.

Court in the exercise of its ordinary original Civil jurisdiction may, in certain cases, authorize acts required by the Code of Civil Procedure to be done by a Pleader, to be done by an Attorney.

Proviso.

IX. Whenever any thing is directed by the said Act VIII of 1859 to be done by or through a Pleader, the said High Court or any Judge thereof in the exercise of the ordinary original Civil jurisdiction of the said Court may authorize such act to be done by or through an Attorney at Law of the Court. Provided that no Attorney shall be authorized under the provisions of this Section to plead in the said Court or in any Division Court for any person.

Application of Act to the High Courts at Madras and Bombay.

X. This Act shall apply *mutatis mutandis* to the High Courts of Judicature which may be established at Madras and Bombay under Act 24 and 25 Victoria, Chapter 104, for those Presidencies respectively, whenever such Courts shall be established. Provided that the powers vested by this Act in the Governor-General in Council shall be exercised in the Presidencies of Madras and Bombay by the Governors in Council of those Presidencies respectively.

XI. This Act shall be deemed to have had and to have effect as if it had actually passed and received the assent of the Governor-General on the 1st day of July 1862.

Act to have effect from 1st July 1862.

XII. This Act shall continue in force until the 1st day of January 1863

Duration of Act.

Offg. Deputy Secy. to the Govt. of India, Home Department.

THE following Report of a Select Committee of the Council of the Governor-General for the purpose of making Laws and Regulations, together with the Bill as settled by them, is published for general information:—

HOME DEPARTMENT.

LEGISLATIVE.

WE, the undersigned, Members of the Select Committee of the Council of the Governor-General of India for the purpose of making Laws and Regulations, to whom the Bill for the consolidation and amendment of the laws relating to Customs Duties was referred, have the honor to report that we have carefully considered the Bill and the papers connected with it.

The alterations proposed by us are so numerous that they could not be shewn in parallel columns without re-printing nearly the whole of the Original Bill; nor could they now be noticed in detail without unduly extending this Report. We desire, however, to draw attention to some of the more important changes introduced into the Amended Bill now submitted.

Instead of repealing former Regulations and Acts in so far only as they affect certain acts or persons, we propose to repeal absolutely such provisions of Laws as will be superseded by the present Bill. We have added considerably to the list of Regulations and Acts thus repealed; and acting on a suggestion offered by the Committee on the late Tariff Bill, we have taken this opportunity of repealing such portions as remain in force of Acts IX of 1857 and X of 1860.

As we propose to repeal Act X of 1850, it becomes necessary also to propose the insertion of a new Section (XI of the Amended Bill) giving the Supreme Government power by Proclamation to declare that any Port shall be a Free Port. If these proposals be adopted, a Proclamation relative to Aden should be issued, so as to come into force contemporaneously with this Act.

As we propose to repeal Section III of Act VI and the whole of Act VII of 1848, it becomes necessary to insert a new Section (XVII of the Amended Bill) declaring the interportal Trade of India free from Customs Duties. The provisions formerly inserted in this Bill applied merely to goods carried in coasting vessels. But goods may, of course, be carried coastwise, though not in coasting vessels; and, for these cases, it is right to provide. The absence of an express provision on this subject in the Original Bill seems to have given rise to some misapprehension.

Considerable alterations are proposed in Section XI of the Original Bill, corresponding with Section XX of the Amended bill, especially the omission of the Clause relative to articles imported with counterfeit brands or marks, and of that relative to the importation of the separate parts of articles chargeable with Duty on value. After much consideration it seems to us better that these Clauses should be omitted; and we believe that their omission will be acceptable to the Mercantile Community.

We propose to insert a new Section (XXIII of the Amended Bill) requiring Exporters and Importers on passing goods through the Customs House to state to the best of their ability the real value of Duty free goods, and of goods liable to fixed Duties according to weight or quantity only. This question has recently been the subject of correspondence between the Supreme Government and the Government of Bengal; and the amendment now proposed will, no doubt, be a convenience to all parties.

We propose by Sections XXVI and XXVII of the Amended Bill to declare precisely when exportation and importation respectively are to be held to take place.

We recommend the omission of Section XXVIII of the Original Bill relative to cases of smuggling on board of Vessels of War. It does not appear to us that the risk of injury to the Revenue in this way is so serious as to require the insertion of a provision which might give rise to much inconvenience.

We propose the insertion of a new Section (XLVII of the Amended Bill) providing, as regards importation, for the allowance, during fifteen days of the services of a Customs Officer free of cost, as provided in Section CX with respect to exportation.

Adverting to Section LII of the Original Bill, we do not think that liberty to bond need be confined to goods on which Duty to the extent of Rupees 100 is leviable; nor that licenses for private warehouses need be restricted to six months; and we consider that goods may, without renewals of bonds, be allowed to be bonded for three years.

We would omit the long table of allowances of ullage and wastage from Section LXX of the Original Bill, corresponding with Section LXXXVIII of the Bill as now amended (most of the articles in that table not being articles of Import into British India); and would confine the allowances for ullage and wastage to wines, spirits, and beer in wood.

With reference to Sections CIV and CXXVI of the Amended Bill, we are of opinion that the reserved Duty of one-eighth hitherto charged on the re-exportation of goods (whether from bond or after payment of Import Duty) should now be relinquished. We are given to understand that the sacrifice of revenue which this would entail will be trifling; while the convenience will be great.

We would insert a new Section (CVIII of the Amended Bill) applying to the Bengal Bonded Warehouse Association all provisions of this Bill relative to private warehouses. The then existing provisions of the law relating to private warehouses were made applicable to that Association by Section XXV of Act V of 1838. But those provisions are repealed by this Bill; and it is necessary, therefore, to give the Association the benefit of the new provisions which are here substituted for them.

Passing to Section CXXII of the Amended Bill, we propose, in supersession of the present more complicated arrangement, that goods passed after Port-clearance shall pay an extra Duty of 2 per cent. all round.

We have proposed an addition to Section CI of the Original Bill, corresponding with Section CXXVI of the Amended Bill, in order to meet the case of certain articles on which (even if they be not country articles) special Export Duties have, at least since 1860, been charged. For instance, a quantity of saltpetre was lately imported from the Persian Gulf into Bombay, and, after payment of Import Duty there, was re-exported to another Foreign Port. Doubt was felt as to the manner in which Export Duties should be levied in that case. So long as the present special Export Duties are charged on all articles exported, we consider that the procedure now recommended by us is less objectionable than any other. It will not apply to articles shipped from bond, in respect to which importation will not (under Section XXVI of the Amended Bill) have taken place.

By Section CXL of the Amended Bill, we propose to leave with the local Governments the power of regulating details relative to their own coasting vessels.

Section CLIX of the Amended Bill, we believe, will carry out the principle hitherto acted upon with regard to the exportation of spirits of Indian manufacture

In order that Section CLXXI of the Amended Bill may not interfere with the maintenance of a uniform Tariff for all India, we would provide that the fixing of values therein authorized shall be with the sanction of the Governor-General of India in Council.

We propose the insertion, in lieu of Section CLXXV of the Original Bill, of a general Section (CCV of the Amended Bill) providing that penalties, &c., levied under this Act, shall be thrown into a general Fund, from which the Chief Customs Authority, under rules to be prescribed by the local Government, may grant rewards as occasion may require.

We recommend the omission of Section CLXXXI of the Original Bill, by which it was proposed that the amount of Customs or Excise Duty on Salt paid at any place in the Bombay Presidency shall be deducted in settling the Duty leviable on such Salt at any other Port in India.

On the subject of Section CCVIII of the Amended Bill, the Board of Revenue seem to have had some recent correspondence with Government The Board are not satisfied that the decision formerly passed is sound; and would endeavor wholly to prevent the consumption of untaxed spirits on board of ships in Port. We are not, however, prepared to adopt the views of the Board or to suggest any change in this respect.

In submitting this Report we beg to notice that all the more important amendments now proposed had the concurrence of our Honorable Colleague, Mr. Laing.

XXIII. On the importation into, or exportation from, any Port in British India of any goods not liable to Duty or liable to fixed Duties according to weight or quantity only, the owner, consignee, importer, exporter, or agent of such goods shall, in his bill of entry or clearance, truly declare their real value to the best of his knowledge and belief. In case of doubt, it shall be lawful for the Officer in charge of the Custom House to require any such person or any other person who shall be in possession of any invoice, broker's note, policy of insurance, or other document, whereby the value of any such goods can be ascertained, to produce the same, and to furnish any information relating to the value of such goods which it shall be in his power to furnish. And it shall thereupon be the duty of such person to produce any such document or to furnish any such information as shall be so required by such Officer.

Undervalued Goods how to be dealt with.

XXIV. If, upon the examination of any goods entered for Duty, and chargeable with Duty upon the value thereof, but for which a specific value has not been fixed, it shall appear to the Officers of Customs that such goods are properly chargeable with a higher rate or amount of Duty than that to which they would be subject according to the value thereof as described in such entry, it shall be lawful for such Officers to detain such goods. In every such case the Officers shall forthwith give notice in writing to the person entering the goods of their detention and of the value thereof, as estimated by them; and the Officer in charge of the Custom House shall within two working days after such detention, or within such reasonable periods as may with the consent of the parties be arranged, determine either to deliver such goods on the entry of such persons, or to retain the same for the use of Government. If the proceeds arising from such sale shall exceed the sum paid to the person entering the goods, together with the Duty to which the goods are liable, and all charges incurred by Government in connection with them, a portion not exceeding one-half of the overplus shall, at the discretion of the Chief Officer of Customs of the Port, be payable to the Officer who detected the undervaluation of the goods. Nothing in this Section shall prevent the Chief Officer of Customs of the Port when he shall have reason to believe that any such undervaluation was solely the result of accident, from permitting the person entering the goods, on his application for that purpose, to amend such entry, at such value, on payment of such increased rate of Duties or on such other terms as he may determine. When goods are so taken on account of Government, the Duties payable thereon shall in no case be levied from the person entering such goods.

Goods brought to be passed through the Custom House for importation or exportation to correspond in all particulars with description given of them in the application to pass.

XXV. If it be found when any goods are brought to be passed through a Custom House either for importation or exportation, that the packages in which they are contained differ widely from the description given in the application for passing them; or that the contents thereof have been wrongfully described in such entry as regards the denominations, characters, and circumstances according to which such goods are charged with Duty or may be imported and exported; or that the contents of such packages have been wilfully mis-stated in regard to sort, quality, or quantity; or that goods not stated in the entry have been fraudulently concealed in or mixed up with the articles specified therein; or have been packed to deceive the Officers of Customs—such packages, together with the whole of the goods contained therein, shall be liable to confiscation.

Date of importation.

XXVI. If upon the first levying, repealing, enhancement, or reduction of any Duty or upon any change of any fixed valuation for Duty, or upon the first permitting, prohibiting, or restricting of any importation, it shall become necessary to determine the exact date on which an importation of goods had effect, such date shall be deemed to be that on which the goods were actually entered for home consumption at the Custom House.

If goods produced or manufactured in British India be imported into any Port in British India from any Foreign Port or place, such goods shall be treated as Foreign goods, and shall be liable to all the Duties, conditions, and restrictions to which Foreign goods of the like kind and value are liable on the first importation thereof. Provided that if such importation shall take place within three years after the exportation of such goods, and it shall be proved to the satisfaction of the Officer in charge of the Custom House that the property in such goods has continued in the person by whom or on whose account they were exported, the goods may be entered as Indian goods, in such manner as the Chief Customs Authority of the Presidency or place shall, from time to time, direct. Goods for which any drawback of excise shall have been received on exportation, shall in all cases be treated as Foreign goods, unless the Chief Customs Authority of the Presidency or place shall in any case otherwise direct by special order.

FINANCIAL DEPARTMENT.

No. 125.

Extract from the Proceedings of the Government of India, in the Financial Department, dated the 26th July 1862.

READ again the undermentioned papers relative to the Travelling Allowance payable to Ecclesiastical Officers for visiting out-stations:—

Notification of the Ecclesiastical Department, Government of India, dated 18th December 1832.

Financial Resolution, dated 24th December 1858.

RESOLUTION.—His Excellency the Governor-General in Council observes that, under Orders of the 18th December 1832, Chaplains and Assistant Chaplains are authorized to draw Travelling Allowance for visiting out-stations up to Rupees 200 per mensem, calculated at the rate of one day's allowance for every ten miles, allowing for a halt on the Sabbath.

This ruling, however, gives rise to numerous unnecessary and inconvenient references, and it is believed that in many cases the ruling is not satisfactory to the parties affected by it.

For this reason, His Excellency in Council considers it would be a better plan to adopt a fixed mileage allowance. He observes, that such a Rule has already been laid down in Financial Resolution, dated 24th December 1858, which permits Chaplains to draw Travelling Allowance at their option either under the Rule of 1832, or at the rate of eight annas a mile; but that Rule is not sufficient to remove the evils complained of, for not only does it not altogether supersede the Rule of 1832, but it also fixes a mileage rate, which, in the opinion of the Governor-General in Council, would not be a fair allowance, under all circumstances, if substituted for the old Rule.

His Excellency in Council believes that twelve annas per mile very nearly equals the allowance under the Rules of 1832, and would not be an improper remuneration to Chaplains when they have occasion to visit out-stations, and that if this rate were adopted in lieu of the allowance fixed in the Order of 1832, there would in the end be no additional expense to the State.

Accordingly, he resolves that the following Rule be adopted in supersession of the Rules of the 18th December 1832 and 24th December 1858, *viz.*,—

Chaplains and Assistant Chaplains when visiting out-stations under Ecclesiastical Authority shall be allowed Travelling Allowance at the rate of twelve annas per mile, except for the distance traversable by Railway, for which they shall be allowed three annas a mile.

Ordered, that copies of the above Resolution be forwarded to—

The Home Department for information, and the Civil Pay-Masters, Fort William, North-Western Provinces, Punjab, Madras, and Bombay, for information and guidance.

ORDERED also, that a copy of the Resolution be published in the *Calcutta Gazette* for general information.

Rules for redemption of Land Revenue, under Resolution of the Supreme Government, dated 19th October 1861.

2. Commutation revenue and nazarana are not redeemable, except where the payer is also proprietor of the soil. 3. Where, in addition to the revenue payable into the Government Treasury, the Government has assigned a further payment to a Talnqdar, Choudhri, or other headman under whatever designation, to maintain his dignities and emoluments, these fees will not be redeemable any more than Lumberdar's fees or Pachotra.

The only remaining points which need be ruled have been already disposed of by the correspondence published in the *Punjab Gazette Supplement* of the 18th June 1862, and the principles therein laid down are to be followed in regard to redemption of cesses, and of the land revenue on portions of Mahals.

5. The annexed form of Sanad is to be given to persons who have redeemed their revenue on receipt of the redemption money, which is to be paid in full before the demand of revenue is intermitted. 	„ Howe Frederick Showers, (104th Regiment) ...	15th „ „	Lieutenant A. H. B. Bruce, late 13rd Native Infantry (Staff Corps), promoted.

* The promotion of this Officer is made under the provisions of paragraph 58 of Government General Order No. 332 of the 10th April 1861, and will in no way affect his position in Her Majesty's 101st Regiment, for appointment to which Corps he was placed at the disposal of His Excellency the Commander-in-Chief by Government General Order No. 705 of the 15th July 1862.

No. 750 *of* 1862.—His Excellency the Governor General in Council is pleased to extend to Officers on leave the Rule which permits Officers of one Presidency, when absent on duty, to draw their Pay and Allowances from the Pay Authorities of any other Presidency at which they may be residing, and to lay down the following Rules for future guidance:—

Officers of one Presidency may draw advances on account of their Pay and Allowances which have become due from Pay-Masters at any other Presidency at which they may be residing, whether on duty or on leave on Medical Certificate or Private Affairs.

Officers so situated must furnish, with their Bills, a last Pay Certificate from their own Presidencies, shewing specifically the sums to be deducted and the amount to which entitled, and also indicate the General Order or other Authority under which they are absent.

These Rules are also applicable to cases of Officers embarking for Europe from any other than their own Presidencies, and who may be entitled, under the Furlough Regulations, to advances of Pay and Allowances.

In cases of Staff Officers so situated their last Pay Certificates are to specify clearly the amount of half Staff salary to which they may be entitled during their leave.

In cases of emergency, when last Pay Certificates cannot be produced, advances on account of unadjusted arrears of pay may be made on good Security for the amount being furnished.

Bills for any admissible passage money are to be supported by a sufficient Guarantee from the Agents of the Ship or other parties that half the passage money will be refunded in the event of the Officer dying after engagement of his passage, or before the Vessel puts to Sea.

Pay-Masters making advances under these Rules are invariably to record the same on the back of the last Pay Certificate, and will make the necessary communication to the Pay-Master of the other Presidency concerned with the least possible delay, and if Security be taken, it is also to be noted on the Pay Certificate.

If proof be forthcoming that an Officer has already furnished Security at his own Presidency for any demands on the part of Government which may arise, fresh Security is not to be required by Pay-Masters of any other Presidencies.

All over-drawings or short charges will always be adjusted by the Pay Authorities of the Presidency to which the Drawing Officers may belong.

All other orders on this subject at the three Presidencies are hereby superseded.

Rules for redemption of land revenue under Resolution of the Supreme Government, dated 17th October 1861.

1. In lands assessed with a fixed Jumma and a fluctuating Abiana or water-rate, only the fixed Jumma is redeemable. The Abiana will continue to be paid as at present.

2. Commutation revenue and nazarana are not redeemable except where the payer is also proprietor of the soil. Where, however, commutation or nazarana is thus redeemed, it is to be borne in mind that, in the event of the quit rent tenure lapsing, the land will still be liable for the balance of revenue due upon it.

3. 4. The only remaining points which need be ruled have been already disposed of by the correspondence published in the *Punjab Gazette Supplement* of the 18th June 1862, and the principles therein laid down are to be followed in regard to redemption of cesses, and of the land revenue on portions of mehals.

5. The annexed form of Sanad is to be given to persons who have redeemed their revenue on receipt of the redemption money, which is to be paid in full before the demand of revenue is intermitted. When, however, redemption may have been effected under the 1st and 2nd of the Rules above given, the form of Sanad will have to be modified according to circumstances.

Water Communication between Dacca and Sylhet

Navigation of the Kosseara River as far as Phenchoogunge

From T. H. JEWETT, Esq., Commander, Bengal Steamer *Ganges*, to BRIGADIER-GENERAL ST. G. D SHOWERS, C B., Commanding Presidency Division,—(dated the 13th June 1862.)

I HAVE the honor to acknowledge the receipt of your demi-official correspondence, dated the 8th March last, addressed to Phenchoogunge (but which came to hand in Calcutta and thereby causing this delay in answering it), calling on me for a report as to the navigation of the Kosseara River as far as Phenchoogunge. In reply, I beg to state that when I was at Dacca in March last, in Command of the Bengal Steamer *Tay*, with the *Konai* T. B., with the Head-Quarters of the 33rd Native Infantry on board, agreeably to your request, I gathered as much information as I could regarding Sylhet being as closely approached as practicable for the convenience of the Troops, and on enquiry found that Phenchoogunge, a Village on the Kosseara River, was the nearest place commatable that would admit of Steam Navigation ; and all that I could surmise from the different reports having a satisfactory appearance I resolved on venturing it. I was glad to find on the fourth day after leaving Dacca that my endeavors were not unsuccessful, as we reached Phenchoogunge without the slightest difficulty, and the return passage to Dacca occupied a space of two days. The least water to be found in this river at the lowest ebb and driest season of the year is, I am informed, nothing under a fathom, I therefore consider the Kosseara River as far as Phenchoogunge perfectly safe and navigable for any class of Steamers with their Flats at present plying the inland Rivers, as the *Tay* with the *Konai* are two Vessels scarcely to be exceeded in length or breadth, and therefore a very good criterion to go by.

I would also beg to add that there would be no necessity for the establishment of a Coal Depôt at Phenchoogunge, as Vessels could always carry their own fuel from Dacca to thence and back as the passage occupies a space of six days only.

Letter to Officiating Civil Pay-Master, North-Western Provinces, No. 3308, dated 3rd May 1862, copies whereof were sent to all the Civil Pay-Masters.

Read a letter from the Officiating Civil Pay-Master, Punjab, No. 148, dated 13th June last, and its enclosures, enquiring whether tentage and house allowance of Regimental Officers are exempt from the Income Tax.

Read a Report thereon by the Civil Pay-Master, Fort William, dated 18th ultimo.

Resolution.—His Excellency the Governor General in Council observes that, under the 129th Section of the Income Tax Act, Military Officers are entitled to exemption from the duties in respect of tentage or horse allowance, or any allowance in lieu of house rent which they draw as part of their Military allowances, even though such allowances be chargeable to the Civil Department.

Under the orders of 2nd May 1862 a certain sum out of the pay of Officers in the Staff Corps has been declared to be exempt from Income Tax. This sum was intended to correspond to the tentage allowance drawn by Regimental Officers.

But His Excellency in Council observes that the practice of the several Civil Pay-Masters in regard to the tentage allowance of Regimental Officers, in the Public Works Department, has not been uniform. The Governor General in Council accordingly directs that the tentage allowance of Regimental Officers shall be exempt from Income Tax without regard to the Department against which the allowances of those Officers be chargeable.

Ordered, that a copy of the above Resolution be forwarded to the Public Works Department with reference to its Office Memorandum No. 811, dated 16th March 1861.

Copy also to the Government, North-Western Provinces, with reference to its letter No. 443A., dated 5th November 1861.

Copy also to the Punjab Government with reference to its letter No. 1612, dated 23rd October 1860.

Copy also to the Civil Pay-Master, Punjab, in reply to his enquiry of the 13th June last.

Ordered also, that a copy be published in the *Calcutta Gazette* for general information.

MARINE DEPARTMENT.

No. 413.

Fort William, the 8th August 1862.

The following Notification, issued by the Marine Department of the Netherlands' Government at Batavia, is published for general information.

By Order of the Right Hon'ble the Governor General of India in Council,

John G. Reddie,
Offg. Secy. to the Govt. of India.

Notice to Mariners.

Notice is hereby given to Mariners by the Rear Admiral Commanding Her Majesty's Naval Forces in the East Indies and Inspector of Marine that a fixed white Catadioptric Light of the Second Class was erected on the 16th May at Tandjong-Kalian near Muntok, in the Island of Banca. The Light is placed upon a stone Tower, fifty-two Dutch Ells (say about 171 English feet) high, in such a manner that it is visible five Dutch Geographical miles off at an elevation to the eye of four to five Dutch Ells above water.

It is exhibited every night from sunset to sunrise, and can be seen in all directions from the Sea.

The Tower is white, but its top and the Lantern are painted red.

According to the Chart of the Straits of Banca, published by Edeling in 1860, it is situate in Long. 105° 7′ 30″ East of Greenwich, and Lat. 2° 5′ South.

The objects for which it has been erected are as follows:—

1*st*.—To enable Ships coming from the North to enter the Straits safely at one-half to two Dutch Geographical miles West and North of the Frederick-Henry Rocks. Keeping the Light in view Vessels can sail safely between the dangers and the Coast of Banca; those proceeding out of the Straits, and northward bound,

can also avoid all danger in sight thereof, and at the same time sail safely (making use of the lead) between the Frederick-Henry Rocks and the Coast of Sumatra.

2*nd*.—The Channel between Karrang Hadjee and Tandjong-Kalian is made available thereby.

3*rd*.—It serves as a mark of (to judge of) the navigable Channel along the Coast of Banca from off Tandjong-Kalian to Karrang, Brom-Brom being on the one side, and the Amelia Bank on the other, whilst on sounding from the Light the fourth Point of Sumatra can be safely approached.

4*th*.—The Tandjong-Kalian Light will be useful as a Beacon for Ships which are bound for Palembang and enter the river at night.

Votes for the new Rule	106
Against it	13

The Managers now propose an amendment of the last Clause of Rule 21, so as to provide for the Auditor and Accountant-General to the Government of India, when a Subscriber to the Fund, being an Ex-officio Manager.

A desire has been expressed by many Subscribers for the reference of the affairs of the Fund to a professional Actuary before any reduction of rates be finally decided upon. The Managers are favorable to such a reference, which, they believe, will support the conclusions at which they have arrived, and allay the fears of some of the Subscribers.

In the prospect of this reference the Managers think that it might appear precipitate to press the question to immediate decision, and they have, therefore, agreed not to submit to this Meeting the proposals for immediate reduction, which have been advertized; and to take steps, with the concurrence of the Meeting, for having the requisite information collected with the view of placing the whole affairs of the Fund before a professional Actuary.

Proposed by Mr. Sandeman, seconded by Mr. Prinsep, and resolved that the admission of the families of Messrs Wylly, Chapman, and Longmore, and the re-admission of Mrs. Beacheroft (formerly Prinsep) to the benefits of the Fund, be confirmed.

Proposed by the Hon'ble Mr. Devereux, and seconded by Mr. Monteath, that this Meeting approve of the amendment of the last Clause of Article 21, proposed by the Managers, so as to provide for the Auditor and Accountant-General to the Government of India being an Ex-officio Manager when a Subscriber to the Fund.

The following amendments on the above were proposed :—

Moved by Mr. Waterfield, seconded by Mr. Wauchope, and carried, that the words "when a Subscriber to the Fund" be omitted.

Moved by Mr. Sandeman, seconded by Mr. Spedding, and carried, that the words "when a Member of the Covenanted Civil Service in any Presidency" be added in lieu of the words omitted.

With the above ammendments the proposal was adopted, the effect on the Rule being as shewn below :—

Former Clause.

A Committee of Managers of the Fund shall, at each January Meeting, be appointed for the ensuing year, and shall consist of the Secretaries to the Government of India in the Home and Financial Departments and the Civil Pay-Master for the time being, six others to be elected at such Meeting

Amended Clause.

A Committee of Managers of the Fund shall, at each January Meeting, be appointed for the ensuing year, and shall consist of the Secretaries to the Government of India in the Home and Financial Departments, *the Auditor and Accountant-General to the Government of India, when a Member of the Covenanted Civil Service in any Presidency,* and the Civil Pay-Master for the time being, with *five* others to be elected at such Meeting.

Proposed by Mr. Wauchope, seconded by Mr. Geoghegan, and resolved, that this Meeting approve of the proposal of the Managers to take the necessary steps for having the requisite information collected with the view of placing the whole affairs of the Fund before a professional Actuary.

Proposed by Mr. Wauchope, seconded by Mr. Sandeman, and resolved, that the Hon'ble W. S. Seton-Karr be elected a Manager in the room of Mr. Temple.

A Vote of thanks was passed to the Chairman.

LEGISLATIVE

FORT WILLIAM, THE 9TH AUGUST 1862.

THE following Bill and Statement of Objects and Reasons accompanying it are published for general information by order of His Excellency the Governor-General in Council :—

No. 51 OF 1862.

Bill to consolidate and amend the law relating to the employment and remuneration of Peons for the service and execution of Civil process in the Courts of the North-Western Provinces of the Presidency of Fort William in Bengal.

Preamble

WHEREAS it is expedient to consolidate and amend the law relating to the employment and remuneration of Peons for the service and execution of Civil process in the Courts of the North-Western Provinces of the Presidency of Fort William in Bengal; It is enacted as follows :—

Laws repealed.

I. From and after the passing of this Act, Section XIV of Regulation XXVI. 1814 of the Bengal Code *(for modifying some of the Rules at present in force regarding the admission and trial of special and summary appeals from decisions passed in regular suits; for limiting and altering some of the existing provisions respecting the pleadings and processes, and the mode of executing decrees and regular suits and appeals; and for explaining and making certain additions to the provisions of Regulation* I. 1814), Section V of Regulation VII 1832 of the said Code *(for modifying certain of the provisions of Regulation V.* 1831, *and for providing supplementary Rules to that enactment)*, and Act XIV of 1845 *(to provide for the appointment of Nazirs in the Moonsiffs' Courts)* shall cease to have effect in the North-Western Provinces of the Presidency of Fort William in Bengal.

Number of Peons for each Court by whom to be fixed.

II. The Judges of the several Zillah Courts and Courts of Small Causes in the said North-Western Provinces shall, as soon as conveniently may be after the passing of this Act, fix the number of Peons necessary to be employed for the service and execution of processes issued out of such Courts, and the Judge of every Court subordinate to a Zillah Court shall, subject to the approval of the Zillah Judge to whom he is subordinate, fix the number of Peons necessary for the service and execution of processes issued out of the Court in which he presides, and the number of Peons so fixed shall be appointed for such Zillah Courts, Small Cause Courts, and subordinate Courts respectively.

Appointment and registration of Peons.

III. The appointment of Peons under the last preceding Section shall be made, subject to the approval of the Judge of the Court, by the Nazir of the Court in which the Peons are employed, or by the Clerk of the Court where there is such an Officer; and every such appointment shall be registered in the Court with the following particulars: the name of the Peon, his age, his place of abode, his father's name, and date of appointment.

None but registered Peons to be employed without special leave of Court

IV. No person who shall not be appointed and registered as a Peon in the manner hereinbefore provided shall be employed in the service or execution of the process of any Court without the special leave of such Court.

Peons to be furnished with belt and plate.

V. The Peons who are appointed and registered in the manner above prescribed, shall be furnished at the expense of the State with a uniform belt and plate, on which shall be inscribed the Court to which the Peon belongs and the number of the Peon in the Register.

VI. The Peons appointed and registered under this Act shall either receive fixed salaries, or be remunerated by fees for the service of the processes served or executed by them, as the local Government shall direct. The amount of salary shall be fixed by the local Government.

Remuneration of Peons.

VII. The cost of serving or executing processes shall be fixed by the Judge of each Court with due regard to the distance from the Court at which service or execution is to take place. The rates so fixed shall be subject to the sanction of the Zillah Judge, if the Judge fixing the same be subordinate to a Zillah Judge. A Table showing the amount chargeable for such service and execution shall be exposed to view in a conspicuous part of the Court.

Rates of serving or executing process.

VIII. On every process served or executed under this Act there shall be endorsed the name of the Peon deputed to serve or execute the same, the period within which the Peon is required to certify service or execution, the amount payable for the service or execution of the process, and the date of payment, and such endorsement shall be signed by the Nazir or Clerk of the Court.

Process to be endorsed by Nazir or Clerk.

IX. When the Peons appointed under this Act are remunerated by a fixed salary, the money paid under this Act for the service or execution of processes shall be carried to the credit of Government, and shall be formed into a fund out of which the salaries of such Peons shall be paid. Any surplus that may accrue from such fund, after paying the salaries of the Peons, shall be at the disposal of the local Government, and may be applied by such Government, subject to the approval of the Governor-General in Council, to the improvement of the administration of Civil Justice in the North-Western Provinces.

Disposal of subsistence money.

X. When the Peons appointed under this Act, are remunerated for their services by fees, the Nazir or Clerk of the Court shall, on delivering any process to be served or executed, pay to the Peon employed to serve or execute such process one-half of the fee deposited for the service or execution of the same, and on such Peon returning to the Nazir or Clerk of the Court such process duly served or executed, the Nazir or Clerk of the Court shall pay to such Peon half of the balance of the fee so deposited. The remaining half of such balance shall be carried to the credit of Government, and shall be added to the fund, if any, for which provision is made in the last preceding Section, and shall be appropriated as therein directed. If the process shall not have been served or executed, the Peon shall nevertheless be entitled to receive the half of such balance as aforesaid, if he shall show to the satisfaction of the Court in which he is employed, good and sufficient cause for the process not having been served or executed.

Payment of fees.

XI. A regular account of all moneys received into and paid out of Court under this Act shall be kept, and extracts from this account shall be forwarded to the local Government at such times, and in such form as such Government shall direct.

Moneys received into and paid out of Court to be duly accounted for.

XII. Every process served or executed under this Act shall be held to be a process within the meaning of Sections 23 and 188 of the Code of Civil Procedure.

Construction of process.

XIII. The Sudder Court shall have power to make rules not inconsistent with this Act, and from time to time to vary such rules, for carrying out the provisions of this Act in all Courts subordinate to the Sudder Court, as well as in the Courts of Small Causes established within the limits of the jurisdiction of the Sudder Court. The rules so made shall be affixed to the Table of Costs under Section VII of this Act.

Power of Sudder Court to make rules.

XIV. The term "Judge" in this Act shall denote the Presiding Judicial Officer in every Court of Civil Judicature, by whatever title he shall be designated.

Interpretation of "Judge."

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to consolidate and amend the Law relating to the employment and remuneration of Peons for the service and execution of Civil process in the Courts of the North-Western Provinces of the Presidency of Fort William in Bengal.

The Code of Civil Procedure (Section 2, Act XXIII of 1861) declares that "every process required to be issued under the Code shall be served at the expense of the party at whose instance it is issued, unless otherwise specially directed by the Court; and that the sum required to defray the costs of such service shall be paid into the Court before the process is issued, within a period to be fixed by the Court issuing the process." But the Code contains no rules for the appointment of the Peons to be employed in the service of the processes of the Civil Courts, for regulating the charges for such service, or for the remuneration of the Peons employed on this duty, and the Sections of the Regulations and the Act, quoted in the margin, which the Bill proposes to consolidate and amend, continue to be the rule of guidance in all matters relating to the appointment and remuneration of the persons employed to serve the processes of the Civil Courts. As regards the processes of the Criminal Courts, to which Section XIV, Regulation XXVI of 1814, also applies, it is sufficient to mention that the Code of Criminal Procedure authorizes no charge being made on the parties for the service or execution of such processes except in the single case for which provision is made in Section 228 of the Code. Under that Section a Magistrate may refuse to summon any witness for the defence whose evidence he considers unnecessary until a deposit is made to defray the expense of obtaining the attendance of such witness.

1814, Regulation XXVI, Section XIV.
1832, Regulation VII, Section V.
1845, Act XIV.

Under the Laws at present in force the Nazirs of the Civil Courts are allowed to appropriate to their own use, in addition to any fixed salaries received by them, one-fourth of the subsistence or diet money deposited for the service or execution of every process, the remaining three-fourths being paid to the Peon employed to serve or execute the process. The provision of Law, under which this appropriation takes place, applied originally only to the Nazirs of the Zillah Courts, but it has been extended by subsequent enactments to all the subordinate Civil Courts. The effect of the provision has been not only to raise the emoluments of the Nazirs of the Civil Courts generally much beyond what, looking to the position of these Officers and the nature of their duties, may be considered an adequate remuneration for their services and responsibilities, but frequently to give the Nazirs in

the Courts of the Moonsiffs larger allowances than are received by the Moonsiffs under whom they are employed. This has led to abuses from which there can be no doubt the character of the Courts in which they have been practised has suffered.

The Bill, after laying down rules for the appointment of the Peons to be employed in the service of the processes of the Civil Courts, and for regulating the charges for such service, provides for the remuneration of the Peons either by fixed salaries or by fees When the Peons receive fixed salaries, the sums paid into Court for the service of processes will be formed into a fund out of which the salaries of the Peons will be paid When the Peons are remunerated by fees, three-fourths of the money, paid as above, will be given to the Peons employed to serve the process, and the remaining one-fourth will be carried to the credit of Government to cover any charges to which the Government may be put in connection with the department. Any surplus from this source, or from the fund before mentioned, will be at the disposal of the local Government, and it is proposed that it should be applied by such Government, subject to the approval of the Governor-General in Council, to the improvement of the administration of Civil Justice in the North-Western Provinces.

Though it has been thought necessary to make provision in the Bill for the payment of the Peons employed to execute the processes of the Civil Courts by fees as well as by fixed salaries, I deem it probable that the latter mode of payment will be generally observed. The system of paying the Peons of the Civil Courts fixed salaries, instead of remunerating them for their services by fees, has already been tried in the North-Western Provinces, to which alone the provisions of the present Bill are intended to apply, and it has been found to work well.

FINANCIAL DEPARTMENT.

No. 3G.

Extract from the Proceedings of the Government of India, in the Financial Department, under date the 9th August 1862.

READ again the undermentioned papers:—

Financial Order, No. 3057, dated 28th April last, together with the Abstract therein referred to, of correspondence on the subject of a proposal for the introduction of Quarterly in lieu of Monthly Contingent Bills.

Letter from the Government of the Punjab, No. 462, dated the 17th June last, reporting that in anticipation of the approval of this Government, it has directed that the former plan of preparing Contingent Bills monthly be reverted to from the beginning of the 2nd Quarter of 1862-63.

Letter to Ditto in reply, No. 450, dated 8th ultimo, intimating that final orders on the subject will be communicated hereafter.

Read also a Report from the Officiating Auditor-General of India on the subject, No. 397, dated 19th ultimo.

RESOLUTION.—His Excellency the Governor-General in Council observes that the plan of submitting for audit *Quarterly*, instead of *Monthly*

Contingent Bills in most of the Departments of the Public Service was introduced into the Punjab as an experimental measure, on the 1st January 1860, and that the result of two years' trial is that most of the Officers in the Punjab are now agreed in condemning it, as being productive of little benefit and much inconvenience.

His Excellency in Council observes also from the Officiating Auditor-General's Report that the opinion of almost all the Officers of the Department of Audit and Account is against the *Quarterly* system.

Primâ facie it seems to His Excellency in Council an anomaly to apply to contingent expenditure a quarterly system with all the inconvenience of Treasury advances on account large inefficient balances and deferred adjustments, when monthly payments and accounts are maintained for other branches of expenditure, and as the scheme has had a fair trial, His Excellency in Council is of opinion that the advantages resulting from it are not sufficient to justify its substitution for the monthly system. He is pleased therefore to resolve that the plan of submitting *Monthly* Contingent Bills shall be continued.

ORDER.—Ordered, that a copy of the above Resolution be sent to the Home and Foreign Departments for information and for the issue of the necessary orders.

Also, that a copy be sent to the Governments of Bengal, Madras, Bombay, the North-Western Provinces, and the Punjab, and to all the Civil Pay Masters and Deputy Auditors and Accountants-General for information and guidance.

Ordered further, that a copy be published in the *Calcutta Gazette*.
